

the event, nor would they be affected by a similar event in the future. Furthermore, the NRC has found the licensee's event response and corrective actions to be reasonable and technically sound.

Based on the above, the Office of Nuclear Reactor Regulation has concluded that future operation of CNP-1 provides reasonable assurance of the continued protection of public health and safety. There were no violations associated with the event. The licensee's corrective actions in response to the event appear appropriate. No further action is required.

In accordance with 10 CFR 2.206 of the Commission's regulations, the staff will file a copy of the director's decision with the Secretary of the Commission for the Commission's review. As provided for by this regulation, the director's decision will constitute the final action of the Commission 25 days after the date of the decision, unless the Commission, on its own motion, institutes a review of the director's decision within that time.

Dated at Rockville, Maryland, this 4th day of September 2009.

For the Nuclear Regulatory Commission.
