Proposed Project: Multidisciplinary Health Care Models for Women Sustainability Assessment Survey—OMB No. 0990-NEW—Office of the Secretary/Office on Women's Health (OWH).

Abstract: The goal of this assessment is to identify and measure the key components of sustainability of federally funded programs. Specifically,

this assessment will examine the extent to which organizations previously funded under OWH's Multidisciplinary Health Care Models for Women (MHMW) effort have sustained or enhanced the core components of the program after OWH funding ended, and identify factors that have facilitated or inhibited sustainability at MHMW program sites.

This assessment is designed to collect data from 48 MHMW program sites through four methods: (1) Abstraction of administrative data from grant and contract documents to establish a baseline understanding of each site, (2) a Web-based survey of key program staff at each site to determine the extent to which the five core components were implemented, (3) key informant interviews with core program staff, and/or other types of staff as necessary, to better understand the factors that influenced implementation and sustainability, and (4) in-person visits to 12 sites to collect in-depth information from additional types of staff, community partners, and clients. OWH is seeking approval from the Office of Management and Budget (OMB) for the Web-based survey and the key informant interviews.

National Institutes of Health

National Institute of Environmental Health Sciences; Division of Extramural Research and Training; Submission for OMB Review; Comment Request; Hazardous Waste Worker Training—42 CFR Part 65

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute of Environmental Health Sciences (NIEHS), the National Institutes of Health (NIH) has submitted

to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the **Federal Register** on April 14, 2009, pages 17195-17196, and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995 unless it displays a currently valid OMB control number.

Proposed Collection: Title: Hazardous Waste Worker Training—42 CFR Part 65. *Type of Information Collection Request:* Revision of OMB No. 0925-0348, expiration date September 30, 2009. *Need and Use of Information Collection:* This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6). The National Institute of Environmental Health Sciences (NIEHS) has been given major responsibility for initiating a worker safety and health training program under Section 126 of the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting workers and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and emergency responders has been developed. In twenty-one years (FY 1987-2008), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained more than 2.2 million workers across the country and presented over 130,250 classroom and hands-on training courses, which have accounted for nearly 30 million contact hours of actual training. Generally, the grant will initially be for one year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4(a), (b), (c) and 65.6(b) on the nature, duration, and purpose of the training, selection criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint applications, the adequacy of training plans and resources, including budget and curriculum, and response to

meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WETP Grantee Data Management System. The information collected is used by the Director through officers, employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards. *Frequency of Response:* Biannual. *Affected Public:* Non-profit organizations. *Type of Respondents:* Grantees. The annual reporting burden is as follows: *Estimated Number of Respondents:* 18; *Estimated Number of Responses per Respondent:* 2; *Average Burden Hours Per Response:* 14; and *Estimated Total Annual Burden Hours Requested:* 504. The annualized cost to respondents is estimated at: \$16,380. There are no Capital Costs, Operating Costs and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, OIRA_submission@omb.eop.gov or by fax to 202-395-6974, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Joseph T. Hughes, Jr., Director, Worker Education and Training Program, Division of Extramural Research and
