

Robert Mitton, Falls Church, VA 22041, or call the TRICARE Management Activity Dental Care Branch, at 703-681-0039.

*Title; Associated Form; and OMB Number:* Active Duty Dental Program Claim Form; OMB Control Number 0720-TBD.

*Needs and Uses:* The information collection requirement is necessary to obtain and record the dental readiness of Service Members using the Active Duty Dental Program and at the same time submit the claim for the dental procedures provided so that claims can be processed and reimbursement made to the provider. Many of these Service Members are not located near a military dental treatment facility and receive their dental care in the private sector. The new form is needed to update the dental readiness of all Service Members so that they can maintain worldwide deployment status and reduces paperwork by combining the dental claim and dental readiness into one form.

*Affected Public:* Private Sector Dentists participating in the Active Duty Dental Program.

*Annual Burden Hours:* 737,500.

*Number of Respondents:* 59,000 (ADDP network is 59,000 dentists).

*Responses per Respondent:* 1-500.

*Average Burden per Response:* 3 minutes.

*Frequency:* On occasion.

#### SUPPLEMENTARY INFORMATION:

##### Summary of Information Collection

Respondents are dental professionals who are participating providers in the Active Duty Dental Program (ADDP). The ADDP Claim form allows civilian dental providers to submit the claim for dental procedures provided to active duty service members and to update their dental readiness classification at the same time. The completed form is forwarded to the ADDP contractor, United Concordia Companies, Inc. for reimbursement and the electronic update of the dental readiness. If the form is not available, civilian providers will not have a mechanism to update dental readiness for this dental program. Dental readiness classification allows the Services to ensure that all Service Members are ready for worldwide deployment. Dental readiness is an integral part of medical readiness, and medical readiness is fundamental to the readiness of our forces.

BILLING CODE 5001-06-P

**DEPARTMENT OF DEFENSE**

**Department of the Army, Corps of Engineers**

**Intent To Prepare a Supplemental Environmental Impact Statement for a Proposed 278 Megawatt Circulating Fluidized Bed Electric Generating Unit and Associated Infrastructure To Be Constructed and Operated by East Kentucky Power Cooperative, Inc., in Clark County, KY**

**AGENCY:** U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of Intent (NOI).

**SUMMARY:** East Kentucky Power Cooperative, Inc. (EKPC) has applied for a permit from the U.S. Army Corps of Engineers (Corps) to authorize unavoidable impacts to jurisdictional waters of the U.S. pursuant to Section 404 of the Clean Water Act (Section 404) and Section 10 of the Rivers and Harbors Act (Section 10). EKPC is proposing to construct and operate a 278 megawatt circulating fluidized bed electric generating unit (CFB) and associated infrastructure at the existing J.K. Smith Power Station (the Smith Site) in southern Clark County, Kentucky (Proposed Action). In addition to the CFB unit, other components of

the Proposed Action on the Smith Site include: An approximately one-mile, 345 kV electric transmission line; two (2) beneficial reuse structural fills using coal combustion by-products (CCB); two (2) landfills for the on-site disposal of CCB; an emergency drought water storage reservoir; several soil borrow areas for landfill cover and other site development uses; and a new water intake/outfall structure in the Kentucky River.

The Corps intends to prepare a Supplemental Environmental Impact Statement (SEIS) to evaluate the potential effects of the Proposed Action on the environment. The SEIS is to be based on a Final EIS and Record of Decision prepared by the U.S. Department of Energy in 2002/2003 for a proposed 540 megawatt coal-fired integrated gasification combined cycle (IGCC) electric generating plant at the same location, the Smith Site. That project, known as the Kentucky Pioneer IGCC Demonstration Project, was never built. USACE has reviewed the EIS prepared by DOE and, based on similarities between the two projects, has determined to adopt that EIS as the basis for USACE's review of the Proposed Action. USACE is preparing this Supplemental EIS (SEIS) to evaluate those aspects of the Proposed Action that are not substantially similar to the DOE project, as a result of changes in project parameters, existing environmental conditions, and relevant laws and regulations. Where appropriate, information from the DOE EIS will be incorporated in the SEIS.

A Notice of Intent (NOI) to prepare an SEIS for the Proposed Action was originally published in the **Federal Register** on October 6, 2006, by the Rural Utilities Service (RUS), an agency which administers the U.S. Department of Agriculture's Rural Development Utilities Programs. 71 FR 59070 (2006).

The Corps previously agreed to participate as a cooperating agency in the preparation of the SEIS in order to meet its NEPA obligations with respect to EKPC's request for a Section 404/Section 10 permit for the Proposed Action. As a result of the RUS decision to suspend financing for new baseload electric generation plants, RUS has informed the Corps that it does not intend to complete the SEIS at this time. Thus, the Corps has determined that it will assume the role of lead agency in order to complete the SEIS and satisfy its NEPA obligations with respect to EKPC's request for a Section 404/Section 10 permit for the Proposed Action.
