

part and denying it in part. Pursuant to 40 CFR 70.8(c), this action started a 90-day period during which IEPA was required to issue a revised Title V permit that addressed the issues raised in the February 1, 2005 order. IEPA did not issue the permit within the 90-day window. The Sierra Club and the American Bottom Conservancy sued EPA, alleging that EPA had a duty to issue the permit following the State of Illinois' failure to timely issue the revised permit.

On September 29, 2006, EPA announced its intent to issue or deny a Federal Title V permit. Veolia submitted a Part 71 permit application to EPA on May 2, 2007. EPA deemed the application administratively complete on June 13, 2007. EPA issued a draft permit for public comment on June 5, 2008, and held a public hearing on July 8, 2008. We received both oral and written comment on the draft permit. We issued a final permit on September 12, 2008, after considering all the comments we received.

On September 12, 2008, EPA notified by letter all parties that participated in the public comment process of the issuance of the final permit. The letter also explained the commenters' right to petition the EAB to review any condition of the permit decision pursuant to 40 CFR 71.11(l)(1).

B. What Is the Purpose of This Notice?

EPA is notifying the public of the issuance of the Title V permit to Veolia on September 12, 2008. Pursuant to 40 CFR 71.11(l)(4), because no one appealed the permit to the EAB following EPA's September 12, 2008, letter notification of the final permit, no one may seek judicial review of this final Agency action. The permit became effective on October 12, 2008.

Dated: September 11, 2009.
