

members will participate in the survey and records collection, and 25 staff will only participate in in-person interviews on site.

Similarly, 40 county and local SNAP office staff will be asked to complete all four components of the study. Two people at each site, minus the 40 who will complete all four study components (for a total of 260 respondents) will participate in the survey, the telephone interview, and the records collection, but will not receive the in-person

interviews. A total of approximately 50 county and local SNAP office staff will participate in in-person interviews only.

Twenty staff from SNAP partners will also be asked to respond to a phone interview, to participate in in-person interviews, and to provide available data records from the past 12 months. For SNAP partners, 163 staff members will be invited to participate in a telephone interview, and those participants will also be asked to conduct the records collection. Another

30 SNAP partners will participate in in-person interviews, but not in the other study components..

Estimated Time per Response: The estimated time of response varies from 10 minutes (0.167 hours) to 4 hours, depending on the respondent and type of instrument, as shown in the table below.

Estimated Total Annual Burden on Respondents: 3184.48 hours.

^a For this collection, the estimated number of respondents and total annual responses are the same, as all data collection will occur within the span of one year. While respondents will be invited to submit no more than one response in each response category (responses annually per respondent is equal to one for each category), individual respondents may be involved in more than one aspect of this collection (so, some respondents may participate in both the survey and the in-person interview).

^b This average includes time burden incurred by nonresponders for reviewing the invitation to participate in the collection and informational materials as well as time that responders spend submitting information under each category.

SUPPLEMENTARY INFORMATION:

Title: Monthly Claims for Reimbursement.

OMB Number: 0584-0284.

Expiration Date: February 28, 2010.

Type of Request: Revision of a currently approved information collection.

Abstract: The National School Lunch Program (NSLP) and School Breakfast Program (SBP), and School Milk Program (SMP) Claim for Reimbursement, Forms FNS-806-A and

FNS-806-B, respectively, are used to collect meal and milk data from school food authorities whose participation in these programs are administered directly by the Food and Nutrition Service (FNS) Regional Offices (Regional Office Administered Programs, or ROAP). The FNS Regional Office directly administers the NSLP, SMP, and/or SBP programs in Virginia, Georgia, and Colorado. In order to determine the amount of reimbursement for meals and milk served, the school food authorities are required to complete these forms. The completed forms are either sent to the Child Nutrition Payments Center at the FNS Mid-Atlantic Regional Office where they are entered into a computerized payment system or submitted electronically via the Internet directly into the Child Nutrition Payments Center. The payment system computes earned reimbursement. Earned reimbursement in the NSLP, SBP and SMP is based on performance that is measured as an assigned rate per meal or half pint of milk served. To fulfill the earned reimbursement requirements set forth in NSLP, SBP and SMP regulations issued by the Secretary of Agriculture (7 CFR 210.8 and 220.11; and 215.10), the meal and milk data must be collected on Forms FNS-806-A and FNS-806-B, respectively. These forms are an intrinsic part of the accounting system currently being used by the subject programs to ensure proper reimbursement.

Respondents: The respondents are State and local governments participating in the NSLP, SBP and SMP under the auspices of the FNS ROAP.

[Docket No. APHIS-2009-0005]

Notice of Determination of the Highly Pathogenic Avian Influenza Subtype H5N1 Status of Hungary

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public of our determination regarding the highly pathogenic avian influenza (HPAI) subtype H5N1 status of Hungary following outbreaks in 2006 and 2007. Based on our evaluation of the animal health status of two counties (Bács-Kiskun and Csongrád) in Hungary, which we made available to the public for review and comment through a previous notice, the Administrator has determined that the importation of live birds, poultry carcasses, parts or products of poultry carcasses, and eggs (other than hatching eggs) of poultry, game birds, and other birds from Hungary presents a low risk of introducing HPAI H5N1 into the United States.

DATES: *Effective Date:* This determination will be effective on October 9, 2009.

FOR FURTHER INFORMATION CONTACT: Mr. Javier Vargas, Case Manager, Regionalization Evaluation Services Staff, National Center for Import and Export, VS, APHIS, 4700 River Road, Unit 38, Riverdale, MD 20737-1231; (301) 734-0756.

SUPPLEMENTARY INFORMATION:

Background

On June 15, 2009, we published in the **Federal Register** (74 FR 28217-28218) a notice 1A¹ in which we announced the availability for review and comment of an evaluation of the animal health status of two counties (Bács-Kiskun and Csongrád) in Hungary relative to highly pathogenic avian influenza (HPAI) subtype H5N1. In the evaluation, titled "APHIS' Evaluation of the Status of High Pathogenicity Avian Influenza H5N1 Virus in Hungary" (November 2008), we presented the results of our evaluation of the prevalence of HPAI H5N1 in domestic poultry in the two counties in light of the actions taken by Hungary's Department for Food Chain Safety and Animal Health (DFCSAH) during and since the outbreaks of HPAI
