Title: Trends in International Mathematics and Science Study (TIMSS:11) and Progress in International Reading Literacy Study (PIRLS:11).

Abstract: NCES seeks OMB approval for Trends in International Mathematics and Science Study (TIMSS) 2011 and the Progress in International Reading Literacy Study (PIRLS) 2011, both coordinated by the International Association for the Evaluation of Educational Achievement (IEA). TIMSS is administered every four years in more than 60 countries and provides data for internationally benchmarking U.S. performance in mathematics and science at the fourth- and eighth-grade levels against other countries around the world. PIRLS is administered every five years in more than 50 countries and provides assessment data for internationally benchmarking U.S. performance in fourth-grade reading. The international field test for the two studies will begin on March 1, 2010, and the full scale collection in April-May 2011. The Department is seeking emergency processing for the recruitment and field test activities for this collection. The collection for the full-scale study will be submitted at the later date under the normal clearance process.

Additional Information: NCES is requesting that the Office of Management and Budget (OMB) approve on an emergency basis the PIRLS/TIMSS March-April 2010 field test, including recruitment of selected schools, school districts, and State education agencies for the field test starting in November 2009. In order to have a reasonable chance to meet the minimum number of schools for the PIRLS and TIMSS field test and to conduct a valid field test including of the response rates under the proposed joint sampling plan, NCES must initiate contact with states and school districts as soon as possible after it receives the list of sample schools chosen by the IEA, in early November.
