[Docket No. 09100091344-9056-02]

RIN 0648-XS06

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 620 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the 2009 total allowable catch (TAC) of pollock for Statistical Area 620 in the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), October 4, 2009, through 2400 hrs, A.l.t., December 31, 2009.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2009 TAC of pollock in Statistical Area 620 of the GOA is 14,098 metric tons (mt) as established by the final 2009 and 2010 harvest specifications for groundfish of the GOA (74 FR 7333, February 17, 2009).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the 2009 TAC of pollock in Statistical Area 620 of the GOA will soon be reached. Therefore,

the Regional Administrator is establishing a directed fishing allowance of 13,900 mt, and is setting aside the remaining 198 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 620 of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pollock in Statistical Area 620 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of October 1, 2009.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

RIN 0648-AW56

Fisheries of the Exclusive Economic Zone Off Alaska; Western Alaska Community Development Quota Program, Rockfish Program, Amendment 80 Program; Bering Sea and Aleutian Islands Area Crab Rationalization Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues regulations to provide harvesting cooperatives, crab processing quota share holders, and Western Alaska Community Development Quota (CDQ) groups with the option to make intercooperative transfers, crab individual processing quota transfers, and inter-group transfers through an automated, web-based process. To facilitate web-based transfers, NMFS removes the requirement for notarized signatures for all crab non-permanent leases of individual fishing quota and individual processor quota and removes unnecessary quota share price-related questions. The purpose of this action is to reduce paperwork burdens on the fishing industry by providing the option of electronic transfer through the Internet. This action allows cooperatives, processors, and CDQ groups to shorten response time to management, market, weather, and other fishery and operational conditions and to increase harvesting and processing efficiency. This action also removes detailed description of information required on application forms from regulatory text; removes detailed NMFS mail, fax, and delivery addresses and replaces them with one paragraph stating that the form may be submitted in accordance with instructions on the form; removes outdated survey-type questions from two applications; divides one application into three separate applications; revises the NMFS Alaska Region web address; and corrects cross-references.

DATES: Effective November 6, 2009.
