This information collection has applied to CCC's Export Enhancement Program (EEP) as well as the DEIP. However, the EEP has been repealed by the Food, Conservation, and Energy Act of 2008. The program regulations at 7 CFR 1494 will be updated to delete references to the EEP.

OMB Number: 0551-0028.

Expiration Date of Approval: January 31, 2010.

Type of Request: Revision of a currently approved information collection.

Abstract: The major objective of the DEIP is to expand U.S. dairy product exports by paying cash to exporters as bonuses, allowing them to sell U.S. dairy products in targeted countries at

competitive prices. Currently, 102 countries and 3 country regions are targeted export destinations and 650 exporters are eligible to participate under the DEIP. Under 7 CFR part 1494, exporters are required to submit the following: (1) Information required for program participation (section 1494.301), (2) performance security (section 1494.401), (3) export sales information in connection with applying for a CCC bonus (section 1494.501), and (4) evidence of export and related information (section 1494.701). In addition, each exporter must maintain accurate records showing sales and deliveries of the eligible commodity exported in connection with an agreement made under the DEIP, as outlined in section 1494.1001. The information collected is used by CCC to manage, plan for and evaluate the use of, and account for Government resources. The reports and records are required to ensure the proper and judicious use of public funds.

Estimate of Burden: The public reporting burden for these collections is estimated to average 41 minutes per response.

Respondents: Exporters of U.S. agricultural commodities, banks or other financial institutions, producer associations, export trade associations, and U.S. Government agencies.

Estimated Number of Respondents: 10 per annum.

Estimated Number of Responses per Respondent: 81 per annum.

Estimated Total Annual Burden on Respondents: 553.5 hours.
