Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Federal Energy Regulatory Commission

[Docket No. EL09-78-000; Docket No. ER09-1214-000]

Notice of Complaint

October 1, 2009.

In the matter of: South Mississippi Electric Power Association, Arkansas Electric Cooperative Corporation, Mississippi Delta Energy Agency, Clarksdale Public Utilities Commission, Public Service Commission of Yazoo City, Conway Corporation, West Memphis Utilities Commission, City of Prescott, Arkansas, Louisiana Energy and Power Authority, Lafayette Utilities System, and Municipal Energy Agency of Mississippi, Complainants, v. Docket No. EL09-78-000 Entergy Services, Inc., Respondent; Entergy Services, Inc. Docket No. ER09-1214-000 (Not Consolidated).

Take notice that on September 28, 2009, South Mississippi Electric Power Association, Arkansas Electric Cooperative Corporation, Mississippi Delta Energy Agency and its two members, the Clarksdale Public Utilities Commission of the City of Clarksdale, Mississippi and the Public Service Commission of Yazoo City of the City of Yazoo City, Mississippi, Conway Corporation, West Memphis Utilities Commission, City of Prescott, Arkansas, Louisiana Energy and Power Authority, Lafayette Utilities System, and Municipal Energy Agency of Mississippi (collectively, Joint Complainants) filed a formal complaint against Entergy Services, Inc. (Entergy) pursuant to sections 206, 306, and 309 of the Federal Power Act (FPA), 16 U.S.C. 824e, 825e, and 825h, and Rules 206 and 212 of the Commission's Rules of Practice and Procedure, 18 CFR 385.206 and 385.212 (2009), alleging that Entergy has not properly implemented the rate redetermination procedures contained in its tariff (2009 Update), and therefore, the 2009 Update filed by Entergy in Docket No. ER09-1214-00 would impose rates and charges that are contrary to the Tariff on file with the Commission and are unjust and unreasonable in violation of the FPA.

Joint Complainants certify that copies of the complaint were served on the contacts for Entergy as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Project No. 12589-001-CO]

Public Service Company of Colorado; Notice of Availability of Final Environmental Assessment

October 1, 2009.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the

application for a new major license for the Tacoma Hydroelectric Project (FERC No. 12589), located on Cascade, Little Cascade and Elbert Creeks in San Juan and La Plata Counties, Colorado. The project currently occupies, in part, 233.4 acres of federal land in the San Juan National Forest administered by the U.S. Forest Service.

Staff prepared a final environmental assessment (EA) that analyzes the probable environmental effects of relicensing the project and concludes that relicensing the project, with appropriate staff-recommended environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. [Docket No. CP09-447-000]

Natural Gas Pipeline Company of America LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Luminant Tatum Mine Project and Request for Comments on Environmental Issues

October 1, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the proposed Luminant Tatum Mine Project (Project) involving construction

and operation of facilities by Natural Gas Pipeline Company of America LLC (Natural) in Panola County, Texas.¹ The EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process we² will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on November 2, 2009.

This notice is being sent to affected landowners; Federal, State, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a Natural representative about survey permission and/or the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the natural gas company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (<http://www.ferc.gov>). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Project

Natural seeks to utilize, for mining purposes, lands currently occupied by three existing pipeline segments. To

¹ On July 22, 2009, Natural filed its application for CP09-447-000 with the Commission under section 7 of the Natural Gas Act and Part 157 of the Commission's regulations. The Commission issued its Notice of Application on August 6, 2009.
