

reserve tranche, the nonexempt deposit cutoff level, and the reduced reporting limit serve to reduce regulatory burdens on depository institutions. Accordingly, the Board finds good cause for determining, and so determines, that notice in accordance with 5 U.S.C. 553(b) is unnecessary. Consequently, the provisions of the Regulatory Flexibility Act, 5 U.S.C. 601, do not apply to these amendments.

■ For the reasons set forth in the preamble, the Board is amending 12 CFR part 204 as follows:

**PART 204—RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS (REGULATION D)**

■ 1. The authority citation for part 204 continues to read as follows:

**Authority:** 12 U.S.C. 248(a), 248(c), 371a, 461, 601, 611, and 3105.

■ 2. Section 204.4(f) is revised to read as follows:

**§ 204.4 Computation of required reserves.**

\* \* \* \* \*

(f) For all depository institutions, Edge and Agreement corporations, and United States branches and agencies of foreign banks, required reserves are computed by applying the reserve requirement ratios below to net transaction accounts, nonpersonal time deposits, and Eurocurrency liabilities of the institution during the computation period.

Reservable liability	Reserve requirement ratio
<b>NET TRANSACTION ACCOUNTS:</b>	
\$0 to reserve requirement exemption amount (\$10.7 million) .....	0 percent of amount.
Over reserve requirement exemption amount (\$10.7 million) and up to low reserve tranche (\$55.2 million).	3 percent of amount.
Over low reserve tranche (\$55.2 million) .....	\$1,335,000 plus 10 percent of amount over \$55.2 million.
Nonpersonal time deposits .....	0 percent.
Eurocurrency liabilities .....	0 percent.

**12 CFR Part 229**

[Regulation CC; Docket No. R-1372]

**Availability of Funds and Collection of Checks**

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** The Board of Governors (Board) is amending the routing number guide to next-day availability checks and local checks in Regulation CC to delete the reference to the head office of the Federal Reserve Bank of Dallas and to reassign the Federal Reserve routing symbols currently listed under that office to the head office of the Federal Reserve Bank of Cleveland. The Board is also amending the routing number guide to delete the reference to the Los Angeles branch office of the Federal Reserve Bank of San Francisco and to reassign the routing symbols currently listed under that office to the head office of the Federal Reserve Bank of Cleveland. These amendments reflect the restructuring of check-processing operations within the Federal Reserve System. The Board is also providing

advance notice about anticipated future amendments in connection with the Reserve Banks' restructuring such that by early next year there will only be a single check-processing region for purposes of Regulation CC. Accordingly, at that time there will no longer be any checks that would be considered nonlocal.

**DATES:** The amendments to appendix A to part 229 in amendatory instruction 2 are effective October 17, 2009.

The amendments to appendix A to part 229 in amendatory instruction 3 are effective November 14, 2009.

**SUPPLEMENTARY INFORMATION:**

**Background**

Regulation CC establishes the maximum period a depository bank may wait between receiving a deposit and making the deposited funds available for withdrawal.<sup>1</sup> A depository bank generally must provide faster availability for funds deposited by a "local check" than by a "nonlocal

check." A check is considered local if it is payable by or at or through a bank located in the same Federal Reserve check-processing region as the depository bank.

Appendix A to Regulation CC contains a routing number guide that assists banks in identifying local and nonlocal banks and thereby determining the maximum permissible hold periods for most deposited checks. The appendix includes a list of each Federal Reserve check-processing office and the first four digits of the routing number, known as the Federal Reserve routing symbol, of each bank that is served by that office for check-processing purposes. Banks whose Federal Reserve routing symbols are grouped under the same office are in the same check-processing region and thus are local to one another.

**Final Amendments to Appendix A**

On October 17, 2009, the Reserve Banks will transfer the check-processing operations of the head office of the Federal Reserve Bank of Dallas to the head office of the Federal Reserve Bank of Cleveland. On November 14, 2009, the Reserve Banks will transfer the check-processing operations of the Los Angeles branch office of the Federal Reserve Bank of San Francisco to the head office of the Federal Reserve Bank of Cleveland. As a result of these changes, some checks that are drawn on and deposited at banks located in the Dallas, Los Angeles, and Cleveland check-processing regions and that currently are nonlocal checks will

<sup>1</sup> For purposes of Regulation CC, the term "bank" refers to any depository institution, including commercial banks, savings institutions, and credit unions.

become local checks subject to faster availability schedules. To assist banks in identifying local and nonlocal checks and making funds availability decisions, the Board is amending the lists of routing symbols in appendix A associated with the Federal Reserve Banks of Dallas, San Francisco, and Cleveland to reflect the transfer of check-processing operations from the Dallas head office and the Los Angeles branch office to the head office of the Federal Reserve Bank of Cleveland. To coincide with the effective date of the underlying check-processing changes, the amendments to appendix A are effective October 17 and November 14, 2009, respectively. The Board is providing notice of the amendments at this time to give affected banks ample time to make any needed processing changes. Early notice also will enable affected banks to amend their availability schedules and related disclosures if necessary and provide their customers with notice of these changes.<sup>2</sup>

#### Information About Anticipated Future Changes to Regulation CC

The Federal Reserve Banks initially announced in November 2008 that decreases in check volume necessitated transition to a single paper-check-processing site in order to comply with the cost recovery provisions of the Monetary Control Act.<sup>3</sup> On July 31, 2009, the Reserve Banks reaffirmed that decreasing check-processing volume was likely to necessitate the transition to a single check-processing center by the first quarter of 2010.<sup>4</sup> The Reserve Banks are taking these steps in response to the continued nationwide decline in check usage, as well as the rapidly increasing use of electronic check-clearing methods, and to meet the cost recovery requirements of the Monetary Control Act of 1980. For the information and planning needs of banks, the Board is today providing notice that, assuming check volumes continue to evolve in line with the Reserve Banks' expectations, the Reserve Banks intend to change their check-processing infrastructure such that by early next year there will be only a single check-processing region for purposes of Regulation CC. Accordingly, at that time

there will no longer be any checks that would be considered nonlocal.

#### Administrative Procedure Act

The public comment requirements of section 553(b) of the Administrative Procedure Act do not apply to these amendments to Appendix A of Regulation CC because the amendments involve matters of agency organization. The Monetary Control Act requires cost recovery for Federal Reserve Bank priced services over the long term, which from time to time necessitates changes in the internal organization of Reserve Bank services in order to meet the statutory mandate. The rapid decline in paper check volumes, generally, and the decline in paper checks sent to the Reserve Banks for collection have significantly reduced the need for Federal Reserve check-processing locations and the ability of Reserve Banks to recover the costs of maintaining those locations. In order to achieve the Monetary Control Act requirement of long-run full cost recovery, the Reserve Banks have adjusted their check service infrastructure to reduce the number of check-processing regions. In light of the fact that the Reserve Banks are receiving a high percentage of checks electronically, the consolidation of check processing centers and the accompanying amendments to Appendix A of Regulation CC are required by law. As a result of the consolidation of Federal Reserve check-processing offices, amendments to Appendix A are necessary because the statutory and regulatory terms "local" and "nonlocal" are defined in terms of "check-processing regions"—the geographic areas served by a Federal Reserve check-processing office.

In addition, the Board finds, in accordance with APA section 553(d), good cause for making the amendments to Appendix A relating to the transfer of check-processing operations from Dallas to Cleveland effective without 30 days advance publication. On August 14, 2009, the Federal Reserve Banks, by letter, informed depository institutions within Dallas's check-processing region of the October 17 transfer of check-processing operations from Dallas to Cleveland. That letter was then published on the Federal Reserve Financial Services' Web site. Accordingly, the affected depository institutions are aware of and making preparations for the transfer of paper check-processing operations from Dallas to Cleveland.

#### Paperwork Reduction Act

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506; 5 CFR 1320 Appendix A.1), the Board has reviewed the final rule under authority delegated to the Board by the Office of Management and Budget. The technical amendments to Appendix A of Regulation CC will delete the references to the head office of the Federal Reserve Bank of Dallas and the Los Angeles branch office of the Federal Reserve Bank of San Francisco and reassign the routing symbols listed under those offices to the head office of the Federal Reserve Bank of Cleveland. The depository institutions that are located in the affected check-processing regions and that include the routing numbers in their disclosure statements would be required to notify customers of the resulting change in availability under § 229.18(e). However, the Board believes that all procedures for notifying customers of any change in funds availability are in place, and therefore, the Board anticipates that no additional burden will be imposed as a result of this rulemaking.
