In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), 19 U.S.C. 2273, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 29, 2009, applicable to workers of Sparton Electronics, including on-site leased workers from Kelly Services, Manpower of Jackson, HRU, Inc., Technical Resources and Patriot Technical, Jackson, Michigan. The notice will be published soon in the **Federal Register**.

for workers of the subject firm. The workers are engaged in the production of electronic circuit boards.

The company reports that on-site leased workers from CSS USA were employed on-site at the Jackson, Michigan location of Sparton Electronics. The Department has determined that these workers were sufficiently under the control of the subject firm to be considered leased workers.

Based on these findings, the Department is amending this certification to include workers leased from CSS USA working on-site at the Jackson, Michigan location of Sparton Electronics.

The amended notice applicable to TA-W-70,813 is hereby issued as follows:

All workers of Sparton Electronics, including on-site leased workers from Kelly Services, Manpower of Jackson, HRU, Inc., Technical Resources, Patriot Technical and CSS USA, Jackson, Michigan, who became totally or partially separated from employment on or after May 19, 2008, through July 29, 2011, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.

Oval International; Hoquiam, WA; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated August 26, 2009, a petitioner requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA) applicable to workers and former workers of the subject firm. The determination was issued on August 6, 2009. The Notice of Determination was

published in the **Federal Register** on September 2, 2009 (74 FR 45474).

The initial investigation resulted in a negative determination based on the finding that imports of pulp bale strapping machines and spare parts did not contribute importantly to worker separations at the subject firm. The investigation revealed that the subject firm did not shift production of pulp bale strapping machines and spare parts to foreign countries during the period under investigation.

In the request for reconsideration, the petitioner alleged that employment at the subject firm was negatively impacted by a shift in production of spare parts abroad. To support the allegation, the petition supplied additional documentation.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 29th day of September 2009.
