

potato at 2.0 ppm; potato, wet peel at 6.0 ppm; sheep, fat at 0.8 ppm; sheep, liver at 0.3 ppm; sheep, meat at 0.1 ppm; and sheep, meat byproducts at 0.1 ppm. The proposed tolerance levels are based on results of studies on the magnitude of 2,6-DIPN in potatoes and processed potatoes and in livestock edible commodities. EPA issued a final rule, published in the **Federal Register** of September 1, 2006 (71 FR 52003) (FRL-8081-9), which announced that it established time-limited tolerances for residues of the biochemical pesticide 2,6-DIPN in or on the above-listed commodities, with an expiration date of August 1, 2009. Because of a then-existing data gap, all initial tolerances were time-limited. The time limitation was established to provide sufficient time for the development and review of additional data, specifically a study on the nature of 2,6-DIPN residues in potatoes and animals, an independent laboratory validation of analytical methods in animal tissues, and a multiresidue method tryout. Loveland Products Inc. submitted the study on the nature of the residues in plants and animals on July 24, 2009, and a multiresidue method tryout report on October 8, 2009.

EPA is providing a shortened comment period of 10 days on this notice of filing. EPA is expediting action on this petition because the time-limited tolerances for 2,6-DIPN have expired. EPA has determined that 2,6-DIPN is a reduced risk pesticide and, given its wide-scale use on potatoes in cold storage, that it is in the public interest to have this reduced risk pesticide available as soon as possible for use on this valuable commodity. Application of 2,6-DIPN on stored potatoes decreases the number of applications necessary for a conventional pesticide on stored potatoes, thus posing less risks and providing better efficacy. EPA has previously evaluated the toxicity of 2,6-DIPN and determined that there is a reasonable certainty that no harm will result from dietary exposure to residues of 2,6-DIPN at the requested tolerance levels. Thus, EPA does not anticipate receiving any adverse comments on the subject petition. For these reasons, EPA is expediting the processing of this petition and is confident that a shortened 10-day comment period on the petition is appropriate.

Carbaryl; Notice of Receipt of a Request To Voluntarily Cancel Pesticide Registrations To Terminate Use of Certain Products

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of a request by the registrant to voluntarily cancel their registrations to terminate uses of pet collar products containing the pesticide carbaryl. The request would terminate carbaryl use in or on pet collars for domestic pets, and would terminate the last carbaryl pet products registered for use in the United States. EPA intends to grant this request at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request, or unless the registrant withdraws its request within the comment period. Upon acceptance of this request, any sale, distribution, or use of products listed in this notice will be permitted only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before November 20, 2009.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2008-0347, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *Mail:* Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- *Delivery:* OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. Deliveries are only accepted during the Docket

Facility's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket Facility telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2008-0347. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available at <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT:

Jacqueline Guerry, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (215) 814-2184; fax number: (215) 814-3113; e-mail address:

guerry.jacqueline@epa.gov.

SUPPLEMENTARY INFORMATION:**I. General Information***A. Does this Action Apply to Me?*

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests To Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from Wellmark International to cancel two carbaryl product registrations. Carbaryl is a carbamate insecticide registered for use in agriculture, professional turf management and ornamental production, public health mosquito abatement programs, and residential areas. All carbaryl products registered for use on pet products, except collars, were voluntarily canceled by the registrants on February 17, 2006. Wellmark International is the only registrant with any remaining carbaryl pet products. In a letter dated September 30, 2009, Wellmark International requested EPA to cancel the affected product registrations identified in Table 1 of this notice. Specifically, Wellmark International has requested the cancellation of its pet collars treated with the active ingredient carbaryl effective September 30, 2010. This action will terminate the last carbaryl pesticide products registered in the United States for use on pets.

III. What Action Is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to cancel certain carbaryl product registrations. The affected products and the registrant making this request are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of

any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The carbaryl registrants have requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

Wellmark International requested the cancellation of the registrations listed in the following Table 1:

TABLE 1—CARBARYL PRODUCT REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration Number	Product Name	Company
2724-272	Flea Collar RF-76 for Cats	Wellmark International
2724-273	Flea Collar RF-75 for Dogs	Wellmark International

Table 2 of this unit includes the name and address of record for the registrant of the products listed in Table 1 of this unit.

TABLE 2—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION AND/OR AMENDMENTS

EPA Company Number	Company Name and Address
2724	Wellmark International 1501 E. Woodfield Road, Suite 200 West Schaumburg, Illinois, 60173

IV. What Is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter,

following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Carbaryl

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before [30 days after date of publication in the **Federal Register**]. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation order, the effective date of cancellation and all other provisions of any earlier cancellation order are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation order.

In any order issued in response to this request for cancellation of product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 in Unit III. Wellmark International may sell or distribute such existing stocks until December 30, 2010. All sale or distribution of existing stocks by Wellmark is prohibited after December 30, 2010, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

The Agency will allow persons other than the registrant to continue to sell and/or use existing stocks of canceled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. If, as the Agency currently intends, the final cancellation order contains the existing stocks provision just described, the order will be sent only to the affected registrants of the canceled products. If the Agency determines that the final cancellation order should contain existing stocks provisions different than the ones just described, the Agency will publish the cancellation order in the **Federal Register**.

List of Subjects

Environmental protection, Pesticides and pests.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8970-8]

EPA Science Advisory Board Staff Office; Request for Nominations of Experts for the SAB Polycyclic Aromatic Hydrocarbon (PAH) Mixtures Review Panel

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice request for nominations.

SUMMARY: The Science Advisory Board (SAB) Staff Office is requesting public nominations of experts to form an SAB *Ad Hoc* Panel to review EPA's draft technical document entitled *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures*.

DATES: Nominations should be submitted by November 12, 2009 per instructions below.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Request for Nominations may contact Mr. Aaron Yeow, Designated Federal Officer (DFO), SAB Staff Office, by telephone/voice mail at (202) 343-9878; by fax at (202) 233-0643; or via e-mail at yeow.aaron@epa.gov. General information concerning the EPA Science Advisory Board can be found on the EPA SAB Web site at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION:

Background: EPA's Integrated Risk Information System (IRIS) is an electronic database containing descriptive and quantitative toxicological information on human health effects that may result from chronic exposure to various substances in the environment. This information supports human health risk assessments and includes hazard identification and dose-response data and derivations of oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for noncancer effects and oral slope factors and oral and inhalation unit risks for cancer effects. IRIS is prepared and maintained by EPA's

National Center for Environmental Assessment (NCEA) within the Office of Research and Development (ORD). NCEA's IRIS Program has developed a draft technical document entitled *Development of a Relative Potency Factor (RPF) Approach for Polycyclic Aromatic Hydrocarbon (PAH) Mixtures* for cancer risk from exposure to PAH mixtures. The relative potency factor approach assumes that individual PAH potencies relative to an index compound (i.e., benzo[a]pyrene, [BaP]) are added together to yield a cancer risk estimate for the whole mixture. ORD has requested that the SAB conduct a review of this draft document.

The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice, consultation and recommendations to the EPA Administrator on the technical basis for Agency positions and regulations. The SAB Staff Office will form an expert Panel to review ORD's draft IRIS PAH Mixtures document. The SAB Panel will comply with the provisions of the Federal Advisory Committee Act (FACA) and all appropriate SAB procedural policies. Upon completion, the Panel's report will be submitted to the chartered SAB for final approval for transmittal to the EPA Administrator. The PAH Mixtures Review Panel is being asked to comment on the scientific soundness of the Agency's draft IRIS document.

Availability of the Review Materials: The EPA draft IRIS document to be reviewed by the PAH Mixtures Review Panel will be made available by ORD at the following URL: <http://epa.gov/ncea> (under "Recent Additions"). For questions concerning the review materials, please contact Dr. Lynn Flowers, at (703) 347-8537, or flowers.lynn@epa.gov.

Request for Nominations: The SAB Staff Office is requesting nominations of nationally recognized experts with expertise in one or more of the following areas, particularly with respect to PAH Mixtures: chemistry; general toxicology; toxicokinetics; carcinogenesis and mode of action; genetic toxicology; dose response assessment; biostatistics; risk assessment, specifically for chemical mixtures; and application of the relative potency factor methodology.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals for possible service on the PAH Mixtures Review Panel in the areas of expertise described above. Nominations should be submitted in electronic format (which is preferred over hard copy) following the
