#### **Pacific Gas and Electric Company; Notice of Availability of Final Environmental Assessment**

October 14, 2009.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47879), the Commission has reviewed an application, filed August 26, 2008 and supplemented January 30, 2009, requesting approval of a proposed plan to provide spring frost protection and late fall irrigation water for commercial crops and hay in the Potter Valley Project area, FERC Project No. 77. Commission staff has prepared a final Environmental Assessment (EA) and in the final EA, staff analyzed the potential environmental effects of the proposed plan and concludes that approval of the plan, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The Order Granting Amendment of License Article 52 was issued on October 14, 2009 and the final EA is attached to the order. A copy of the final EA is also on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. #### **San Diego Gas & Electric Company; Notice of Filing**

October 14, 2009.

Take notice that on October 9, 2009, pursuant to Rule 207 of the Federal Energy Regulatory Commission's Rules of Practice and Procedure and Regulations, 18 CFR 385.207 (2006), San Diego Gas & Electric Company (SDG&E) filed a Petition for Declaratory Order (Petition) requesting Commission approval of proposed accounting and ratemaking treatment for a portion of SDG&E's 500 kV Sunrise Powerlink Project, to be located in Imperial Valley County between the San Diego County line and the Imperial Valley Substation (Border-East Line), that will be the subject of a thirty-year lease to Citizens Energy Corporation. This Petition is addressing the portion of the Border-East Line that SDG&E is not leasing to Citizens.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Docket No. NP09-26-000]

#### North American Electric Reliability Corporation; Order Addressing Applicability of Section 215 of the Federal Power Act to Federal Entities

October 15, 2009.

1. On June 24, 2009, the North American Electric Reliability Corporation (NERC) filed a Notice of Penalty for a self-certified violation of a Commission-approved Reliability Standard by the U.S. Army Corps of Engineers (Corps)-Tulsa District. In that filing, NERC requested that the Commission issue a decision addressing the jurisdictional issue of whether, pursuant to section 215 of the Federal Power Act (FPA), federal entities that use, own, or operate the Bulk-Power System, such as the Corps-Tulsa District, must comply with mandatory Reliability Standards.

2. The Corps-Tulsa District did not seek Commission review of the Notice of Penalty, which took effect on the 31st day after filing pursuant to section 215(e)(2) of the FPA.<sup>1</sup> In this order, we affirm that, pursuant to section 215 of the FPA, the Corps-Tulsa District and other federal entities that use, own, or operate the Bulk-Power System must comply with mandatory Reliability Standards.

#### Background

##### A. Statutory Framework

3. Section 215 of the FPA authorizes the Commission to certify and oversee

an electric reliability organization (ERO), which is responsible for developing and enforcing mandatory Reliability Standards that are applicable to owners, users, and operators of the Bulk-Power System.<sup>2</sup> Section 215(e) authorizes the ERO, as well as the Commission on its own motion or on complaint, to assess penalties for violation of Reliability Standards.<sup>3</sup> Exercising this statutory authority, the Commission certified NERC as the ERO<sup>4</sup> and initially approved 83 Reliability Standards.<sup>5</sup> Further, consistent with the statute, NERC as the ERO delegated to eight Regional Entities, including Texas Regional Entity, authority to, *inter alia*, enforce mandatory Reliability Standards.<sup>6</sup>

4. Users, owners, and operators of the Bulk-Power System are required to register with NERC.<sup>7</sup> NERC's Compliance Registry identifies all entities subject to compliance with the approved Reliability Standards. Further, NERC has developed a statement of Registry Criteria that is employed by NERC and the Regional Entities to determine which organizations should be registered because they are material to the reliability of the Bulk-Power System.<sup>8</sup> In cases where an entity is registered involuntarily by NERC, that entity has an opportunity to timely appeal its registration status in accordance with Rule 504 and Appendix 5 to NERC's Rules of Procedure.

5. NERC must file a Notice of Penalty with the Commission before a Regional Entity or NERC penalty assessment for the violation of a Reliability Standard takes effect.<sup>9</sup> Each penalty determination is subject to Commission review, on its own motion or by an application for review by the recipient
