

transmit frequency, channel bandwidth and satellite used shall be time annotated and maintained for a period of not less than 1 year. Records will be recorded at time intervals no greater than every 20 minutes while the ESV is transmitting. The ESV operator will make this data available upon request to a coordinator, fixed system operator, fixed-satellite system operator, NTIA, or the Commission within 24 hours of the request.

13. Section 25.222(a)(5) requires ESV operators communicating with vessels of foreign registry must maintain detailed information on each vessel's country of registry and a point of contact for the relevant administration responsible for licensing ESVs.

14. Section 25.222(b)(3) states there shall be an exhibit included with the application describing the geographic area(s) in which the ESVs will operate.

15. Section 25.222(b)(5) requires that ESVs that exceed the radiation guidelines of Section 1.1310 Radiofrequency radiation exposure limits must provide, with their environmental assessment, a plan for mitigation of radiation exposure to the extent required to meet those guidelines.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide telecommunication services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization (WTO) Basic Telecom Agreement.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 92-237; DA 09-2226]

GSA Approves Renewal of North American Numbering Council Charter Through September 25, 2011

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On October 16, 2009, the Commission released a public notice announcing GSA's approval of the renewal of the North American Numbering Council charter through September 25, 2011. The intended effect of this action is to make the public aware of the renewal of the North American Numbering Council charter.

DATES: Renewed through September 25, 2011.

ADDRESSES: Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission, The Portals II, 445 12th Street, SW., Suite 5-C162, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Deborah Blue, Special Assistant to the Designated Federal Officer (DFO) at (202) 418-1466 or Deborah.Blue@fcc.gov. The fax number is: (202) 418-1413. The TTY number is: (202) 418-0484.

SUPPLEMENTARY INFORMATION: Released October 16, 2009.

The General Services Administration (GSA) has renewed the charter of the North American Numbering Council (NANC or Council) through September 25, 2011. The Council will continue to advise the Federal Communications Commission (Commission) on rapidly evolving and competitively significant numbering issues facing the telecommunications industry.

In October 1995, the Commission established the NANC, a Federal advisory committee created pursuant to the Federal Advisory Committee Act, 5 U.S.C., App. 2 (1988), to advise the Commission on issues related to North American Numbering Plan (NANP) administration in the United States. The original charter of the Council was effective on October 5, 1995, establishing an initial two-year term. Amended charters were filed on October 5, 1997, October 5, 1999, October 5, 2001, October 5, 2003, September 26, 2005, and September 27, 2007, each renewing the term of the charter for an additional two years.

Since the last charter renewal, the Council has provided the Commission with critically important recommendations regarding number

administration, such as the recommendation regarding the assignment of geographic numbers from the NANP and a central database to support interoperability for Internet-based relay services. In addition, the Council reviewed and recommended technical requirements for a request for proposals associated with a new North American Numbering Plan Administrator (NANPA) contract. The Council also provided detailed evaluations of the current NANPA, the Pooling Administrator (PA) and the Billing and Collection (B&C) Agent. The Council will continue to evaluate the performances of the NANPA, the PA and the B&C Agent on an annual basis. Moreover, the Council is presently considering and formulating recommendations on other important numbering-related issues that will require work beyond the term of the present charter.

The value of this Federal advisory committee to the telecommunications industry and to the American public cannot be overstated. Numbers are the means by which consumers gain access to, and reap the benefits of, the public switched telephone network. The Council's recommendations to the Commission will facilitate fair and efficient number administration in the United States, and will ensure that numbering resources are available to all telecommunications service providers on a fair and equitable basis, consistent with the requirements of the Telecommunications Act of 1996.

Marilyn Jones,

Attorney, Competition Policy Division, Wireline Competition Bureau, Federal Communications Commission.
