

burdens and increasing the practical utility of information collected by the Federal Government?

- Should OMB encourage agencies to adopt “one-stop” information collection techniques, which consolidate multiple forms via a single electronic form to reduce the burden on the public? How should OMB encourage agencies to take advantage of online tools to simplify the completion of already-approved surveys or mobile technology to deliver a survey by alternative means?

- What practices could OMB implement under the PRA to facilitate the use of new technologies, such as social media, as well as future technologies, while supporting the Federal Government’s responsibilities for Information Resource Management?

- What new steps, if any, might be taken under the PRA to eliminate any redundant or excessive mandatory information collections, especially in connection with programs that now impose the most significant burdens, including tax, health, and transportation programs?

- Examples of successful paperwork burden reduction practices implemented by an agency that could be implemented by other agencies. Please provide recommendations, and if possible, OMB control numbers.
