

involving the United States and Canada or Mexico.

The Foundation develops, supports, and/or operates programs and projects to educate and train educational and environmental professionals, and to assist them in the development and delivery of environmental education and training programs and studies.

The Foundation has a governing Board of Directors (hereafter referred to in this section as 'the Board'), which consists of 13 directors, each of whom shall be knowledgeable or experienced in the environment, education and/or training. The Board oversees the activities of the Foundation and assures that the activities of the Foundation are consistent with the environmental and education goals and policies of the Environmental Protection Agency and with the intents and purposes of the Act. The membership of the Board, to the extent practicable, represents diverse points of view relating to environmental education and training. Members of the Board are appointed by the Administrator of the Environmental Protection Agency.

Within 90 days of the date of the enactment of the National Environmental Education Act, and as appropriate thereafter, the Administrator will publish in the **Federal Register** an announcement of appointments of Directors of the Board. Such appointments become final and effective 90 days after publication in the **Federal Register**. The directors are appointed for terms of 4 years. The Administrator shall appoint an individual to serve as a director in the event of a vacancy on the Board within 60 days of said vacancy in the manner in which the original appointment was made. No individual may serve more than 2 consecutive terms as a director.

Dated: October 22, 2009.

Lisa P. Jackson,
Administrator.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8974-2; Docket ID No. EPA-HQ-ORD-2009-0791]

Draft Toxicological Review of Trichloroethylene: In Support of the Summary Information in the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period.

SUMMARY: EPA is announcing a public comment period for the external review draft document titled, "Toxicological Review of Trichloroethylene: In Support of Summary Information on the Integrated Risk Information System (IRIS)" (EPA/635/R-09/011A). The draft document was prepared by the National Center for Environmental Assessment (NCEA) within the EPA's Office of Research and Development (ORD). The public comment period and the EPA Science Advisory Board (SAB) peer-review workshop, which will be scheduled at a later date and announced in the **Federal Register**, are separate processes that provide opportunities for all interested parties to comment on the document. EPA intends to forward the public comments that are submitted in accordance with this notice to the SAB peer-review panel prior to the meeting for their consideration. When finalizing the draft document, EPA intends to consider any public comments that EPA receives in accordance with this notice.

EPA is releasing this draft document solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This document has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency policy or determination.

DATES: The public comment period begins November 3, 2009, and ends February 1, 2010. Technical comments should be in writing and must be received by EPA by February 1, 2010. Due to the schedule of the SAB peer-review meeting, EPA cannot entertain any request for an extension of the public comment period.

ADDRESSES: The draft "Toxicological Review of Trichloroethylene: In Support of Summary Information on the Integrated Risk Information System (IRIS)" is available primarily via the Internet on the NCEA home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of paper copies are available from the Information Management Team, NCEA; telephone: 703-347-8561; facsimile: 703-347-8691. If you are requesting a paper copy, please provide your name, mailing address, and the document title.

Comments may be submitted electronically via <http://www.regulations.gov>, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions as provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: For information on the public comment

period, contact the Office of Environmental Information Docket; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail: ORD.Docket@epa.gov.

If you have questions about the document, contact Weihsueh Chiu, National Center for Environmental Assessment (NCEA), Two Potomac Yard (North Building), 2733 S. Crystal Drive, Arlington VA 22202; telephone: 703-347-8607; facsimile: 703-347-8692; or e-mail: chiu.weihsueh@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About IRIS

IRIS is a database that contains potential adverse human health effects information that may result from chronic (or lifetime) exposure to specific chemical substances found in the environment. The database (available on the Internet at <http://www.epa.gov/iris>) contains qualitative and quantitative health effects information for more than 540 chemical substances that may be used to support the first two steps (hazard identification and dose-response evaluation) of a risk assessment process. When supported by available data, the database provides oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for chronic health effects, and oral slope factors and inhalation unit risks for carcinogenic effects. Combined with specific exposure information, government and private entities can use IRIS data to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health.

II. How To Submit Technical Comments to the Docket at <http://www.regulations.gov>

Submit your comments, identified by Docket ID No. EPA-HQ-ORD-2009-0791 by one of the following methods:

- <http://www.regulations.gov>: Follow the on-line instructions for submitting comments.
- *E-mail:* ORD.Docket@epa.gov.
- *Fax:* 202-566-1753.
- *Mail:* Office of Environmental Information (OEI) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. The phone number is 202-566-1752.

- *Hand Delivery:* The OEI Docket is located in the EPA Headquarters Docket Center, EPA West Building, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center's Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday

through Friday, excluding legal holidays. The telephone number for the Public Reading Room is 202-566-1744. Such deliveries are only accepted during the docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information. If you provide comments by mail or hand delivery, please submit one unbound original with pages numbered consecutively, and three copies of the comments. For attachments, provide an index, number pages consecutively with the comments, and submit an unbound original and three copies.

Instructions: Direct your comments to Docket ID No. EPA-HQ-ORD-2009-0791. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked "late," and may only be considered if time permits. It is EPA's policy to include all comments it receives in the public docket without change and to make the comments available online at <http://www.regulations.gov>, including any personal information provided, unless a comment includes information claimed to be confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through <http://www.regulations.gov> or e-mail. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is

not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy at the OEI Docket in the EPA Headquarters Docket Center.

Dated: October 20, 2009.

Rebecca Clark,

Acting Director, National Center for Environmental Assessment.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[MN88; FRL-8975-1]

Notice of Issuance Federal Operating Permit to Grand Casino Mille Lacs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces that, on August 27, 2009, pursuant to Title V of the Clean Air Act, EPA issued a Title V Permit to Operate (Title V permit) to Mille Lacs Band Corporate Commission (Grand Casino Mille Lacs). This permit authorizes Grand Casino Mille Lacs to operate its four diesel-fired generator sets (generators) at its facility (Facility) in Onamia, Minnesota. The electricity produced from the generators can be used for peak load management, as well as backup power for the Grand Casino Mille Lacs Resort and Hotel, which is located on lands held in trust for the Mille Lacs Band of Ojibwe Indians, and which is located within the boundaries of the Mille Lacs Indian Reservation.

DATES: During the public comment period, which ended August 12, 2009, EPA received no comments on the draft Title V permit. Therefore, in accordance with 40 CFR 71.11(i)(2)(iii), this permit became effective immediately upon permit issuance, August 27, 2009.

ADDRESSES: The final signed permit is available for public inspection online at <http://yosemite.epa.gov/r5/r5ard.nsf/Tribal+Permits!OpenView>, or during normal business hours at the following address: EPA, Region 5, 77 West Jackson Boulevard (AR-18J), Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Richard Angelbeck, Environmental Scientist, EPA, Region 5, 77 W. Jackson Boulevard (AR-18J), Chicago, Illinois

60604, (312) 886-9698, or angelbeck.richard@epa.gov.

SUPPLEMENTARY INFORMATION: This supplementary information is organized as follows:

- A. What Is the Background Information?
- B. What Is the Purpose of this Notice?

A. What Is the Background Information?

The four diesel-fired generators are owned by Grand Casino Mille Lacs. The total generation capacity of the generators is 6.6 megawatts. The electricity produced from the generators can be used for peak load management, as well as backup power, and is not sold for distribution.

Since the potential emissions from the existing three generators were estimated to be greater than 250 tons per year (tpy) for nitrogen oxides (NO_x), in accordance with 40 CFR 52.21(b)(1), the Facility is considered a major stationary source and subject to the Prevention of Significant Deterioration (PSD) permitting requirements. As required by 40 CFR part 52, Grand Casino Mille Lacs applied to EPA for a PSD permit for the original three generators and conducted a Best Available Control Technology (BACT) analysis, an air quality analysis, and the additional impact analyses. EPA received the permit application on October 13, 2006. The Federal PSD construction permit (No. PSD-ML-R50007-05-01) that EPA issued to the Facility contained all applicable part 52 requirements. Within this permit, the Facility also chose to accept a 300-hour per year operating limit per generator, restricting the Facility's potential to emit (PTE) emissions.

Since Grand Casino Mille Lacs is considered a major source, was issued a PSD permit, and is located on tribal land, in accordance with 40 CFR 71.3(a), the Facility is subject to Title V permitting requirements of 40 CFR part 71.

The construction of the fourth generator did not trigger PSD for two reasons. First, the 2005 PSD permit established a facility-wide PTE for all regulated pollutants, before the fourth generator was installed, of less than 250 tpy (*i.e.*, not a major source), so that the addition of the fourth generator did not constitute a modification to a major stationary source. In addition, the PTE of the fourth generator is 209 tpy which is also below the 250-ton PSD threshold for a major source. In its part 71 permit application, Grand Casino Mille Lacs requested that EPA incorporate the original three generator sets, as well as the fourth generator, into this Title V permit. As noted above, the original
