

subject firm manufactured iron casting components for various industries. The Department requested an additional list of customers of the subject firm and conducted a customer survey to determine whether imports of iron casting components negatively impacted employment at the subject firm.

The survey of the subject firm's major declining customers revealed that the customers increased their imports of iron casting components while decreasing purchases from the subject firm from 2007 to 2008.

In accordance with Section 246 the Trade Act of 1974 (26 USC 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for alternative trade adjustment assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of Section 246 of the Trade Act must be met. The Department has determined in this case that the requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with those produced at Belcher-Robinson Foundry, Alexander City, Alabama, contributed importantly to the declines in sales or production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Belcher-Robinson Foundry, Alexander City, Alabama, who became totally or partially separated from employment on or after March 30, 2008, through two years from the date of this certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed in Washington, DC, this 21st day of October 2009.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

Sunshine Act Meetings

TIME AND DATE: 9 a.m. to 11 a.m., Saturday, November 14, 2009.

PLACE: Westward Look Resort, 245 E. Ina Road, Tucson, AZ, 85704.

STATUS: This meeting will be open to the public, unless it is necessary for the Board to consider items in executive session.

MATTERS TO BE CONSIDERED: (1) A report on the U.S. Institute for Environmental Conflict Resolution; (2) A report from the Udall Center for Studies in Public Policy; (3) A report on the Native Nations Institute; (4) Program Reports; and (5) A Report from the Management Committee.

PORTIONS OPEN TO THE PUBLIC: All sessions with the exception of the session listed below.

PORTIONS CLOSED TO THE PUBLIC: Executive session.

CONTACT PERSON FOR MORE INFORMATION: Ellen K. Wheeler, Executive Director, 130 South Scott Avenue, Tucson, AZ 85701, (520) 901-8500.

Dated: October 15, 2009.

Ellen K. Wheeler,

Executive Director, Morris K. Udall Scholarship and Excellence in National Environmental Policy Foundation, and Federal Register Liaison Officer.

NATIONAL SCIENCE FOUNDATION

National Science Board; Sunshine Act Meetings; Notice

The National Science Board's Executive Committee, pursuant to NSF regulations (45 CFR part 614), the National Science Foundation Act, as amended (42 U.S.C. 1862n-5), and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice in regard to the scheduling of meetings for the transaction of National Science Board business and other matters specified, as follows:

DATE AND TIME: Wednesday, November 4, 2009 at 1:30 p.m. ET.

SUBJECT MATTER: Specific staffing or personnel issues.

STATUS: Closed.

This meeting will be held by teleconference originating at the National Science Board Office, National Science Foundation, 4201 Wilson Blvd.,

Arlington, VA 22230. Please refer to the National Science Board Web site (<http://www.nsf.gov/nsb>) for information or schedule updates, or contact: Kim Silverman, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: (703) 292-7000.

Susanne Bolton,

Management Analyst.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2009-0454]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 664, General Licensee Registration;
2. *Current OMB approval number:* 3150-0198;
3. *How often the collection is required:* Annually;
4. *Who is required or asked to report:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to 10 CFR 31.5.
5. *The number of annual respondents:* 840
6. *The number of hours needed annually to complete the requirement or request:* 280 hours annually (840 respondents x 20 minutes per form).
7. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be

identified even if lost or damaged. Also, the registration program ensures that general licensees are aware of and understand the requirements for the possession, use and disposal of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the regulatory requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

Submit, by January 4, 2010, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology.

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2009-0454.

You may submit your comments by any of the following methods. Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2009-0454. Mail comments to the NRC Clearance Officer, Tremaine Donnell (T-5F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions about the information collection requirements may be directed to the NRC Clearance Officer, Tremaine Donnell, (T-5F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6258, or by e-mail to INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 30th day of October 2009.

For the Nuclear Regulatory Commission,
Christopher Colburn,
Acting NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0484; Docket No. 030-18632; License No. 21-19111-02; EA-09-016]

Magna Chek, Inc., Madison Heights, MI; Confirmatory Order; Effective Immediately

I

Magna Chek, Inc., (Magna Chek or licensee) is the holder of Materials License No. 21-19111-02 issued by the U.S. Nuclear Regulatory Commission (NRC or Commission) pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 30 on May 20, 1985. The license currently authorizes Magna Chek to store radioactive sources at its permanent facility in Warren, Michigan.

This Confirmatory Order is the result of an agreement reached during Alternative Dispute Resolution (ADR) mediation sessions conducted on August 4 and September 16, 2009.

II

On May 1, 2008, the NRC conducted an onsite inspection at the Magna Chek storage location in Warren, Michigan. The purpose of the inspection was to review the corrective actions taken by Magna Chek in response to a Notice of Violation issued on December 19, 2007 (EA-09-260 and EA-09-265). As a result of the inspection observations, the NRC Office of Investigations (OI) initiated an investigation (OI Case No. 3-2008-017). Based on the evidence developed during the inspection and investigation, the NRC identified apparent security violations of NRC requirements. The violations are described in the Appendix to this Order. (The Appendix includes Security-Related information; therefore, it is not publicly available.)

The results of the investigation completed on December 30, 2008, were sent to Magna Chek in a letter dated April 1, 2009. This letter offered Magna Chek the opportunity either to participate in ADR mediation or to attend a Predecisional Enforcement Conference. In response to the NRC's offer, Magna Chek requested use of the NRC's ADR process to resolve the differences it had with the NRC. On

May 11, 2009, the NRC and Magna Chek agreed to mediate. On August 4, 2009, the NRC and Magna Chek participated in an ADR session mediated by a professional mediator, arranged through the Cornell University Institute on Conflict Resolution. Following that session, the NRC and Magna Chek agreed to a second ADR session, which occurred on September 16, 2009. As used by the NRC, ADR is a process in which a neutral mediator with no decision-making authority assists the parties in reaching an agreement on resolving any differences regarding the dispute. This confirmatory order is issued pursuant to the agreement reached during the ADR process.

III

During the August 4, 2009, ADR session, an interim agreement was reached where the licensee agreed to implement corrective actions, as described in the Appendix to this Order, prior to a second ADR session. The corrective actions include Security-Related information and, therefore, are not publicly available. During the September 16, 2009, ADR session, a preliminary settlement agreement was reached. The elements of the agreement consisted of the following:

1. Magna Chek will establish an escrow account with an initial value of \$25,000 to cover the eventual disposal of all radioactive sources in its possession within 30 days of the date of the Confirmatory Order unless disposal of those sources has already occurred. The account will be established so that funds may be used only to cover costs directly associated with the packaging, transport, and disposal of the sources and no funds will be spent from the account without prior written approval from the NRC. Magna Chek will make deposits of \$1000 by the 10th day of each month into the escrow account until disposal of the sources occurs. If Magna Chek is unable to make a deposit for any reason, it will notify the NRC within 10 days of the missed deposit.

2. Within 30 days of the date of the Order, Magna Chek will provide to the NRC documentation of the initial escrow account deposit. Magna Chek will provide to the NRC statements of the account every six months thereafter until disposal of the sources occurs.

3. Magna Chek will cooperate in full with the Department of Energy (DOE) and/or the Conference of Radiation Control Program Directors (CRCPD) to dispose of the sources. In conjunction with the disposal effort, Magna Chek will transfer ownership/possession of the sources to an entity to be specified by DOE or CRCPD.
