

II. How Can I Get Copies of this Document and Other Related Information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPPT-2009-0718. All documents in the docket are listed in the docket index available at <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically at <http://www.regulations.gov>, or, if only available in hard copy, at the OPPT Docket. The OPPT Docket is located in the EPA Docket Center (EPA/DC) at Rm. 3334, EPA West Bldg., 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room hours of operation are 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number of the EPA/DC Public Reading Room is (202) 566-1744, and the telephone number for the OPPT Docket is (202) 566-0280. Docket visitors are required to show photographic identification, pass through a metal detector, and sign the EPA visitor log. All visitor bags are processed through an X-ray machine and subject to search. Visitors will be provided an EPA/DC badge that must be visible at all times in the building and returned upon departure.

List of Subjects

Environmental protection, Acute exposure guideline levels, Administrative practice and procedure, Hazardous substances, Health and safety.

Dated: October 28, 2009.

Stephen A. Owens,

Assistant Administrator, Office of Prevention, Pesticides and Toxic Substances.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[Regional Docket Nos. V-2008-1, FRL-8978-1]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Columbia Generating Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to Clean Air Act (Act) operating permit.

SUMMARY: This document announces that the EPA Administrator has responded to a petition asking EPA to object to an operating permit issued by the Wisconsin Department of Natural Resources (WDNR). Specifically, the Administrator granted in part and denied in part the petition submitted by the Sierra Club to object to the operating permit for Columbia Generating Station (Columbia).

Pursuant to sections 307(b) and 505(b)(2) of the Act, a petition for judicial review of those portions of the petition which EPA denied may be filed in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final order, the petition, and other supporting information at the EPA Region 5 Office, 77 West Jackson Boulevard, Chicago, Illinois 60604. If you wish to examine these documents, you should make an appointment at least 24 hours before visiting day. Additionally, the final order for the Columbia petition is available electronically at: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb.htm>.

FOR FURTHER INFORMATION CONTACT: Pamela Blakley, Chief, Air Permits Section, Air Programs Branch, Air and Radiation Division, EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone (312) 886-4447.

SUPPLEMENTARY INFORMATION: The Act affords EPA a 45-day period to review, and object, as appropriate, to Title V operating permits proposed by state permitting authorities. Section 505(b)(2) of the Act authorizes any person to petition the EPA Administrator within 60 days after the expiration of the EPA review period to object to a Title V operating permit if EPA has not done so. A petition must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise issues during the comment period, or the grounds for the issues arose after this period.

On September 3, 2008, EPA received a petition from the Sierra Club requesting that EPA object to the Title V operating permit for Columbia. The

Petitioner alleges that the permit is not in compliance with the requirements of the Act. Specifically, the Petitioner alleges that: (1) Certain projects should have been subject to the prevention of significant deterioration program; (2) Wisconsin did not adequately respond to comments on the draft permit; (3) a schedule of compliance should have been included for opacity violations; and, (4) a case-by-case maximum achievable control technology standard should have been included in the permit.

On October 8, 2009, the Administrator issued an order granting the Columbia petition in part, and denying it in part. The order explains the reasons behind EPA's conclusion.

Dated: October 26, 2009.

Richard C. Karl,

Acting Regional Administrator, Region 5.

Draft Toxicological Review of Chloroprene: In Support of the Summary Information in the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of listening session.

SUMMARY: EPA is announcing a listening session to be held on November 23, 2009, during the public comment period for the external review draft document entitled, "Toxicological Review of Chloroprene: In Support of Summary Information on the Integrated Risk Information System (IRIS)." The purpose of the listening session is to allow all interested parties to present scientific and technical comments on draft IRIS health assessments to EPA and other interested parties during the public comment period and prior to the external peer review meeting. EPA welcomes the scientific and technical comments that will be provided to the Agency by the listening session participants. The comments will be considered by the Agency as it revises the draft assessment in response to the independent external peer review and public comments. All presentations will become part of the official and public record.

The EPA's draft assessment and peer review charge are available via the Internet on the National Center for

Environmental Assessment's (NCEA) home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>.

DATES: The listening session on the draft IRIS health assessment for chloroprene will be held on November 23, 2009, beginning at 9 a.m. and ending at 4 p.m., Eastern Standard Time. If you wish to make a presentation at the listening session, you should register by November 16, 2009, indicate that you wish to make oral comments at the session, and indicate the length of your presentation. At the time of your registration, please indicate if you require audio-visual aid (e.g., lap top and slide projector). In general, each presentation should be no more than 30 minutes. If, however, there are more requests for presentations than the allotted time will allow, then the time limit for each presentation will be adjusted accordingly. A copy of the agenda for the listening session will be available at the meeting. If no speakers have registered by November 16, 2009, the listening session will be cancelled. EPA will notify those registered to attend of the cancellation.

The public comment period for review of this draft assessment was announced previously in the **Federal Register** (FR) (74 FR 49874) on September 29, 2009. As stated in that FR notice, the public comment period began on September 29, 2009, and ends November 30, 2009. Any technical comments submitted during the public comment period should be in writing and must be received by EPA by November 30, 2009, according to the procedures outlined below. Only those public comments submitted using the procedures identified in the September 29, 2009, FR notice by the November 30, 2009, deadline will be provided to the independent peer-review panel prior to the peer-review meeting. The date and logistics for the peer-review meeting will be announced later in a separate FR notice.

Listening session participants who wish to have their comments available to the external peer reviewers should also submit written comments during the public comment period using the detailed and established procedures included in the aforementioned September 29, 2009, FR notice (74 FR 49874). Comments submitted to the docket prior to the end of the public comment period will be submitted to the external peer reviewers and considered by EPA in the disposition of public comments. Comments received in the docket after the public comment

period closes will not be submitted to the external peer reviewers.

ADDRESSES: The listening session on the draft chloroprene assessment will be held at the EPA offices at Two Potomac Yard (North Building), 7th Floor, Room 7100, 2733 South Crystal Drive, Arlington, Virginia 22202. To attend the listening session, please register by November 16, 2009, by contacting Ms. Karie Riley, of Versar, Inc, by e-mail at KRiley@versar.com (subject line: Chloroprene Listening Session), or by phone: (703) 750-3000, ext. 579 or toll free at 1-800-2-VERSAR (1-800-283-7727), ext. 579. Ask for the Chloroprene Listening Session Coordinator, Karie Riley. Please note that to gain entrance to this EPA building to attend the meeting, attendees must have photo identification with them and must register at the guard's desk in the lobby. The guard will retain your photo identification and will provide you with a visitor's badge. At the guard's desk, attendees should give the name Christine Ross and the telephone number, 703-347-8592, to the guard on duty. The guard will contact Ms. Ross who will meet you in the reception area to escort you to the meeting room. Upon your exit from the building please return your visitor's badge and you will receive the photo identification that you provided.

A teleconference line will also be available for registered attendees/speakers. The teleconference number is 866-299-3188 and the access code is 926-378-7897 followed by the pound sign (#). The teleconference line will be activated at 8:45 am, and you will be asked to identify yourself and your affiliation at the beginning of the call.

Information on Services for Individuals with Disabilities: EPA welcomes the attendance of the public at the "Chloroprene Listening Session" and will make every effort to accommodate persons with disabilities. For information on access or services for individuals with disabilities, please contact Christine Ross at 703-347-8592 or ross.christine@epa.gov. To request accommodation of a disability, please contact Ms. Ross, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

FOR FURTHER INFORMATION CONTACT: For information on the public listening sessions, please contact Christine Ross, IRIS Staff, National Center for Environmental Assessment, (8601P), U.S. EPA, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; *telephone:* 703-347-8592; *facsimile:* 703-347-8689; or *e-mail:* ross.christine@epa.gov.

If you have questions about the draft chloroprene assessment, contact Allen Davis, IRIS Staff, National Center for Environmental Assessment, U.S. EPA, 109 T.W. Alexander Drive, B243-01, Durham, NC 27711; *telephone:* 919-541-3789; *facsimile:* 919-541-0245; or *e-mail:* davis.allen@epa.gov.

SUPPLEMENTARY INFORMATION: IRIS is a database that contains potential adverse human health effects information that may result from chronic (or lifetime) exposure to specific chemical substances found in the environment. The database (available on the Internet at <http://www.epa.gov/iris>) contains qualitative and quantitative health effects information for more than 540 chemical substances that may be used to support the first two steps (hazard identification and dose-response evaluation) of a risk assessment process. When supported by available data, the database provides oral reference doses (RfDs) and inhalation reference concentrations (RfCs) for chronic health effects, and oral slope factors and inhalation unit risks for carcinogenic effects. Combined with specific exposure information, government and private entities can use IRIS data to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health.

Dated: October 27, 2009.

Peter W. Preuss,

Director, National Center for Environmental Assessment.
