

(b) Targeting resources to better protect the Chesapeake Bay and its tributary waters;

(c) Strengthening storm water management practices at Federal facilities and on Federal lands within the Chesapeake Bay watershed and developing storm water best practices guidance;

(d) Assessing the impacts of a changing climate on the Chesapeake Bay and developing a strategy for adapting natural resources programs and public infrastructure to the impacts of a changing climate on water quality and living resources of the Chesapeake Bay watershed;

(e) Expanding public access to waters and open spaces of the Chesapeake Bay and its tributaries from Federal lands and conserving landscapes and ecosystems of the Chesapeake Bay watershed;

(f) Strengthening scientific support for decision making to restore the Chesapeake Bay and watershed, including expanded environmental research; and

(g) Developing focused and coordinated habitat and research activities that protect and restore living resources and water quality of the Chesapeake Bay and its watershed. E.O. 13508 Section 203 requires the Federal Leadership Committee for the Chesapeake Bay to prepare and publish a strategy for coordinated implementation of existing programs and projects to guide efforts to protect and restore the Chesapeake Bay. The strategy should to the extent permitted by law:

(a) Define environmental goals for the Chesapeake Bay and describe milestones for making progress toward attainment of these goals;

(b) Identify key measureable indicators of environmental condition and changes that are critical to effective Federal leadership;

(c) Describe the specific programs and strategies to be implemented, including the programs and strategies described in draft reports developed under Section 202 of the order;

(d) Identify the mechanisms that will assure that governmental and other activities, including data collection and distribution, are coordinated and effective, relying on existing mechanisms where appropriate; and

(e) Describe a process for the implementation of adaptive management principles, including a periodic evaluation of protection and restoration.

Acknowledging the strong public interest in the future of the Chesapeake

Bay and the actions being taken to improve conditions in the Bay and its watershed, the Federal Leadership Committee for the Chesapeake Bay looks forward to receiving comments on these documents.

What Are the Next Steps in the Process for Collecting Public Comment?

The agencies will review public comments on the draft strategy and agency reports. The comments will be taken into consideration as the Federal Leadership Committee for the Chesapeake Bay develops the final Section 203 strategy. A response to comments document will be released at the same time as the final E.O. 13508 Section 203 strategy with anticipated release by May 12, 2010. The Federal agencies plan to hold a series of stakeholder meetings throughout the Chesapeake Bay watershed to discuss the draft strategy. The details of these meetings will be announced at: <http://executiveorder.chesapeakebay.net>.

Dated: November 4, 2009.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8978-9]

National Drinking Water Advisory Council's Climate Ready Water Utilities Working Group Meeting Announcement

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) is announcing the first teleconference meeting of the Climate Ready Water Utilities (CRWU) Working Group of the National Drinking Water Advisory Council (NDWAC). The purpose of this conference call is to provide a forum for the CRWU Working Group members to introduce themselves, to discuss the ground rules and standard operating procedures, and to develop an estimated time frame and approach to complete the Working Group charge. Any interested person or organization may attend or dial into the conference call (see the **FOR FURTHER INFORMATION CONTACT** section and the **SUPPLEMENTARY INFORMATION** section of this notice for more information).

DATES: The first CRWU Working Group conference call will take place from 3

p.m. to 5:30 p.m., Eastern Standard Time, on November 23, 2009.

FOR FURTHER INFORMATION CONTACT:

Interested participants from the public should contact Lauren Wisniewski, Designated Federal Officer, U.S. Environmental Protection Agency, Office of Ground Water and Drinking Water, Water Security Division (Mail Code 4608T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460. Please contact Lauren Wisniewski at wisniewski.lauren@epa.gov or call 202-564-2918 to register and receive pertinent details such as the telephone number and extension to participate in the conference call.

SUPPLEMENTARY INFORMATION:

Public Participation: The CRWU Working Group encourages public participation and a limited number of phone lines have been reserved for the public. The Designated Federal Officer (DFO) will provide available teleconferencing lines on a first-come, first-serve basis. To ensure adequate time for public involvement, oral statements will be limited to two minutes, and it is preferred that only one person present the statement on behalf of a group or organization. Any person who wishes to file a written statement can do so before or after the CRWU Working Group meeting. Written statements received prior to the meeting will be distributed to all members of the Working Group before any final discussion or vote is completed. Any statements received after the meeting will become part of the permanent meeting file and will be forwarded to the CRWU Working Group members for their information. Any person needing special accommodations for this teleconference should contact the DFO, at the number or e-mail listed under the **FOR FURTHER INFORMATION CONTACT** section, at least five business days before the meeting so that appropriate arrangements can be made.

Background: The Agency's *National Water Program Strategy: Response to Climate Change* (2008) document identified the need to provide drinking water and wastewater utilities with easy-to-use resources to assess the risk associated with climate change and to identify potential adaptation strategies. NDWAC, established under the Safe Drinking Water Act, as amended (42 U.S.C. 300f *et seq.*), provides practical and independent advice, consultation and recommendations to the Agency on the activities, functions and policies related to the implementation of the Safe Drinking Water Act. On May 28, 2009, the NDWAC voted on and approved the formation of the CRWU

Working Group. EPA anticipates that the Working Group will have five face-to-face meetings over the course of the next year in addition to conference calls and/or video conferencing on an as needed basis. After the Working Group completes its charge, it will make recommendations to the full NDWAC. The full NDWAC will, in turn, make appropriate recommendations to the EPA.

Working Group Charge: The charge for the CRWU Working Group is to evaluate the concept of "Climate Ready Water Utilities" and provide recommendations to the full NDWAC on the development of an effective program for drinking water and wastewater utilities, including recommendations to: (1) Define and develop a baseline understanding of how to use available information to develop climate change adaptation and mitigation strategies, including ways to integrate this information into existing complementary programs such as the Effective Utility Management and Climate Ready Estuaries Program; (2) identify climate change-related tools, training, and products that address short-term and long-term needs of water and wastewater utility managers, decision makers, and engineers, including ways to integrate these tools and training into existing programs; and (3) incorporate mechanisms to provide recognition or incentives that facilitate broad adoption of climate change adaptation and mitigation strategies by the water sector into existing EPA Office of Water recognition and awards programs or new recognition programs.

Dated: November 3, 2009.

Nanci E. Gelb,

Acting Director, Office of Ground Water and Drinking Water.
