

acres of public land in Southern California. The proposed 400 MW generation project would be constructed in three phases: (1) 100 MW (Ivanpah 1) and the shared administrative complex/construction logistics area; (2) 100 MW (Ivanpah 2); and (3) 200 MW (Ivanpah 3). The project site is located entirely on public land approximately 4.5 miles southwest of Primm, Nevada. These concentrating solar energy power plants would use distributed power tower and heliostat (mirror) technology, in which heliostat fields focus solar energy on power tower receivers near the center of each heliostat array. The completed 400 MW project would incorporate seven 459-foot tall power towers and approximately 214,000 heliostats (each holding two flat mirrors). Each of the three proposed plants (Ivanpah 1, 2, and 3) would have an individual power block with steam turbine, air-cooled condenser, switchyard, and generation tie-line. The three plants would share access roads, two groundwater wells and water lines, an administrative/maintenance complex, a new substation, a new 5.3-mile natural gas pipeline, and temporary construction staging areas. The DEIS addresses the impacts of the entire 400 MW generation project and does not analyze the environmental impacts for each phase of development separately.

The plants would be connected to the Southern California Edison (SCE) electric power grid through upgrades to SCE's electric transmission line passing through the site and the new substation. The three phases would take several years to construct. Once completed, the solar power plants are expected to operate for 50 years or more. Construction of the first phase of the project is anticipated to begin in 2010 and be completed in 2013.

On November 6, 2007, the BLM published in the **Federal Register** a Notice of Intent (72 FR 62671) to prepare an EIS and Staff Assessment jointly with the CEC under NEPA and the California Environmental Quality Act. The BLM and CEC held public scoping meetings in January 2007 and have held a series of public workshops since then to discuss project changes and mitigation measures. Potential impacts to specific resources such as groundwater (quality and quantity), threatened and endangered species (desert tortoise), vegetation, visual resources, desert bighorn sheep, domestic livestock grazing, and recreation on the Ivanpah Dry Lake were identified during scoping and analyzed in the DEIS.

The DEIS evaluates alternatives to approve the proposed action, approve

with modifications, or deny the ROW application for the ISEGS project as proposed. The BLM will also consider the DRMPA to the California Desert Conservation Area Plan to allow for the ISEGS project. The DEIS analyzed 22 alternative site locations and technologies to the ISEGS project. None of these 22 alternatives met the BLM purpose and need for the proposed action and as such were eliminated from detailed analysis.

Resources that may be affected include, but are not limited to: Desert tortoise, visual resources, cultural resources, ephemeral stream channels, soils, and vegetation.

Please note that public comments and information submitted including names, street addresses, and e-mail addresses of respondents will be available for public review and disclosure at the above addresses for the BLM California State Office and Needles Field Office during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The meeting site is accessible to individuals with disabilities. An individual with a disability needing an auxiliary aid or service to participate in the meeting, such as an interpreting service, assistive listening device, or

materials in an alternate format, must notify the person listed under **FOR FURTHER INFORMATION CONTACT** two weeks before the scheduled meeting date. Although the BLM will attempt to meet a request received after that date, the requested auxiliary aid or service may not be available because of insufficient time to arrange it.

The Federal Advisory Committee Management Regulations [41 CFR 101–6.1015(b),] require BLM to publish in the **Federal Register** notice of a meeting 15 days prior to the meeting date.

II. Public Comment Procedures

Members of the public may make oral statements to the Advisory Board on December 7, 2009 at the appropriate point in the agenda. This opportunity is anticipated to occur at 3 p.m., local time. Persons wishing to make statements should register with the BLM by noon on December 7, 2009 at the meeting location. Depending on the number of speakers, the Advisory Board may limit the length of presentations. At previous meetings, presentations have been limited to three minutes in length, however this time may vary. Speakers should address the specific wild horse and burro-related topics listed on the agenda. Speakers must submit a written copy of their statement to the address listed in the **ADDRESSES** section or bring a written copy to the meeting.

Participation in the Advisory Board meeting is not a prerequisite for submission of written comments. The BLM invites written comments from all interested parties. Your written comments should be specific and explain the reason for any recommendation. The BLM appreciates any and all comments, but those most useful and likely to influence decisions on management and protection of wild horses and burros are those that are either supported by quantitative information or studies or those that include citations to and analysis of applicable laws and regulations. Except for comments provided in electronic format, speakers should submit two copies of their written comments where feasible. The BLM will not necessarily consider comments received after the time indicated under the **DATES** section or at locations other than that listed in the **ADDRESSES** section.

In the event there is a request under the Freedom of Information Act (FOIA) for a copy of your comments, the BLM will make them available in their entirety, including your name and address. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The BLM will release all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, in their entirety, including names and addresses.

Electronic Access and Filing Address

Speakers may transmit comments electronically via the Internet to: *ramona_delorme@blm.gov*. Please include the identifier “WH&B” in the subject of your message and your name and address in the body of your message.

Dated: December 4, 2009.

Edwin L. Roberson,

Assistant Director, Renewable Resources and Planning.
