Instructions: Direct your comments to Docket ID No. "EPA-R04-OAR-2005-AL-0002." EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through <http://www.regulations.gov> or e-mail, information that you consider to be CBI or otherwise protected. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: EPA has established a docket for this action under Docket Identification No. EPA-R04-OAR-2005-AL-0002. All documents in the docket are listed on the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. EPA

requests that, if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 to 4:30, excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Ms. Lynorae Benjamin, Chief, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, Region 4, U.S. Environmental Protection Agency, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-9040. Ms. Benjamin can also be reached via electronic mail at benjamin.lynorae@epa.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was signed by the Acting Regional Administrator on September 10, 2009, and published in the **Federal Register** on October 2, 2009 (74 FR 50930). The proposed action provided a 45-day public comment period. EPA has received a request for an additional 15 days to comment on the proposed rule from one requester, and 90 days from another requester. EPA has considered these requests and has decided to extend the comment period an additional 30 days until December 16, 2009.

Dated: November 2, 2009.

Beverly H. Banister,

Acting Regional Administrator, Region 4.

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA-2008-0020; Internal Agency Docket Nos. FEMA-B-1060 and FEMA-B-1062]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule; correction.

SUMMARY: FEMA is correcting a table for Black Hawk County, Iowa, and Incorporated Areas. Further, on July 8, 2009, FEMA published a proposed rule that properly addressed St. Charles County, Missouri, and Incorporated Areas, but incorrectly indicated that St. Charles County had not been included in any previously published proposed

rule. FEMA seeks to correct and clarify that statement.

FOR FURTHER INFORMATION CONTACT: Kevin C. Long, Acting Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2820 or (e-mail) kevin.long@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a). These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

Need for Corrections

FEMA is correcting a table in a proposed rule which published on July 2, 2009, at 74 FR 31656, and correcting an incorrect statement made in the preamble to a proposed rule that published on July 8, 2009, at 74 FR 32480. On July 2, 2009, FEMA published a proposed rule that contained two errors: first, a table for Black Hawk County, Iowa, and Incorporated Areas contained incorrect information; and second, a table for St. Charles County, Missouri, and Incorporated Areas should not have been included in the rule and published in error. On July 8, 2009, at 74 FR 32480, FEMA published a separate proposed rule which properly addressed St. Charles County, Missouri, and Incorporated Areas. However, the July 8 rule incorrectly indicated that St. Charles County had not been included in any previous proposed rule. FEMA seeks to correct and clarify that statement.

The July 2, 2009, proposed rule contained a table entitled “Black Hawk County, Iowa, and Incorporated Areas,” which contained errors. For flooding source “Dry Run Creek Diversion,” the table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, or communities affected. Also, for flooding source “Ponded Area No. 2, from Elk Run Creek, landside of levee,” the table contained a misspelling for Lafayette Road. FEMA is now publishing a revised table for Black Hawk County, Iowa, and Incorporated Areas, containing the accurate information, to address these prior errors. The information provided in the table below should be used in lieu of the table published on July 2, 2009.

In addition, the July 2, 2009 proposed rule also contained a table entitled, “St. Charles County, Missouri, and Incorporated Areas.” The table was erroneously included in the July 2 rule,

and should not have published at that time. Base flood elevations for St. Charles County properly published in a subsequent proposed rule on July 8, 2009, at 74 FR 32480; the proposed table in the July 8 rule effectively replaced the July 2 proposed table.

The July 8 proposed rule addressed communities in the greater St. Louis, Missouri, area, that are the subject of an act of Congress that required FEMA to delay the statutory appeals process, required under Section 1363 of the National Flood Insurance Act of 1968, until certain publication requirements were met for each of these communities. (Consolidated Security, Disaster Assistance, and Continuing Appropriations Act 2009, Public Law 110–329, Div. B, Sec. 10503, 122 Stat. 3574, 3593 (2008)). The preamble of the July 8 proposed rule contained an incorrect statement which FEMA seeks to clarify here. The proposed rule stated that it was the first publication of proposed BFEs for the affected Missouri

counties. This statement was inaccurate; as explained above, St. Charles County, Missouri, and Incorporated Areas had been inadvertently included in the July 2 rule. However, the inadvertent publication of the July 2 table for St. Charles County will not affect FEMA’s determination to run concurrent comment and appeal periods for all of the communities affected by the July 8 proposed rule. Therefore, counties should consider the July 2 tables for St. Charles County, Missouri, and Incorporated Areas withdrawn and replaced by the July 8 proposed tables. All comment periods and associated time deadlines shall be calculated using the dates and information published in the July 8 proposed rule.

Correction

In the proposed rule published July 2, 2009 (74 FR 31656), on page 31658, revise the table for Black Hawk County, Iowa, and Incorporated Areas to read as follows:

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 36 and 54

[WC Docket No. 05-337; FCC 09-89]

High-Cost Universal Service Support

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: In this notice of proposed rulemaking, the Commission addresses the effect of line loss on universal service Local Switching Support (LSS) received by incumbent local exchange carriers (LECs) that are designated as eligible telecommunications carriers (ETCs). Pursuant to the LSS mechanism, an incumbent LEC ETC serving 50,000 or fewer lines in a study area may recover a portion of its switching costs from the universal service fund. Under the Commission's rules, as an incumbent LEC ETC's access lines increase above certain thresholds, the amount of LSS it may receive decreases, but its support does not increase if its number of access lines falls below the same thresholds. In this notice of proposed rulemaking, the Commission

tentatively concludes that the LSS rules should be modified to permit incumbent LEC ETCs that lose lines to increase their LSS, and we seek comment on these proposed rule changes.

DATES: Comments are due on or before November 24, 2009 and reply comments are due on or before December 1, 2009.
