Annual Survey of Manufactures

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, inventories, capital expenditures, cost of materials consumed, supplemental labor costs, etc. This is a sample survey covering all manufacturing industries including data on plants under construction but not yet in operation.

Business R&D and Innovation Survey

The Business R&D and Innovation Survey (BRDIS) measures annual spending on R&D and innovative activities by U.S. businesses. This survey replaces the Survey of Industrial Research and Development in 2008. The BRDIS collects global as well as domestic R&D spending, more detailed information about the R&D workforce, and information regarding innovation and intellectual property. The Census Bureau collects and compiles this information in accordance with a joint project agreement between the National Science Foundation (NSF) and the Census Bureau. The NSF publishes the results in its publication series. Pursuant to title 13 of the U.S.C., this is a mandatory data collection.

Manufacturers' Unfilled Orders Survey

The Manufacturers' Unfilled Orders Survey will collect data on manufacturing sales and unfilled orders in order to provide annual benchmarks for unfilled orders for the monthly Manufacturers' Shipments, Inventories, and Orders (M3) survey. The annual benchmarks for the shipments and inventory data in the Manufacturers' Unfilled Orders Survey are provided by the Annual Survey of Manufactures (ASM). The Manufacturers' Unfilled

Orders Survey data will also be used by the Census Bureau to determine whether it is necessary to collect unfilled orders data for specific industries on a monthly basis; some industries are not requested to provide unfilled orders data on the M3 Survey.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C. 3501–3520, the OMB approved the 2008 Annual Surveys under the following OMB control numbers: Current Industrial Reports—0607–0476; Annual Survey of Manufactures—0607–0449, Business R&D and Innovation Survey—0607–0912; and Manufacturers' Unfilled Orders Survey—0607–0561.

Based upon the foregoing, I have directed that the Annual Surveys in the Manufacturing Area be conducted for the purpose of collecting these data.

Dated: November 6, 2009.

Corrosion-Resistant Carbon Steel Flat Products from the Republic of Korea: Notice of Extension of Time Limit for the Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Victoria Cho at (202) 482–3797, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW, Washington, DC 20230.

Background

On September 30, 2008, the U.S. Department of Commerce (Department) published a notice of initiation of the administrative review of the antidumping duty order on corrosion-resistant carbon steel flat products from Korea, covering the period August 1, 2007, to July 31, 2008. *See Initiation of*

Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part, 73 FR 56794, 56796 (September 30, 2008). On September 8, 2009, the Department published the preliminary results of this review. *See Certain Corrosion-Resistant Carbon Steel Flat Products from the Republic of Korea: Notice of Preliminary Results of the Antidumping Duty Administrative Review*, 74 FR 46110 (September 8, 2009). The final results of this review are currently due no later than January 6, 2010.

Extension of Time Limit of the Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (Act), requires the Department to issue the final results of a review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days. *See also* 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the original time limit because an issue concerning of application of quarterly costs in this case arose late in the review and requires additional time for analyses of certain information. Therefore, the Department is fully extending the time limit for the final results. The final results are now due not later than March 7, 2010. As that day falls on a Sunday, the final results are due no later than March 8, 2010. *See Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant of the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

This extension is in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2). This notice is published pursuant to section 751(a)(1) and 777(i)(1) of the Act.

Dated: November 6, 2009.

Edward G. Yang,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
