DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 1490-050]

Brazos River Authority; Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

November 12, 2009.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Application Type:* Non-project use of project lands.
- b. *Project No:* 1490-050.
- c. *Date Filed:* August 11, 2009, supplemented October 27, 2009.
- d. *Applicant:* Brazos River Authority.
- e. *Name of Project:* Morris Sheppard Hydroelectric Project.
- f. *Location:* Possum Kingdom Lake in Palo Pinto County, TX.
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791a-825r.
- h. *Applicant Contact:* Phillip Ford, (254) 761-3100.
- i. *FERC Contact:* Mark Carter, (202) 502-6554.
- j. *Deadline for filing comments, motions to intervene, and protests:* December 14, 2009.

All documents (original and eight copies) should be filed with: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, it must also serve a copy of the document on that resource agency. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

k. *Description of Request:* Brazos River Authority (licensee) requests

Commission authorization to grant Tim Hester and Gaines Bend Development Inc. (grantees), permission to construct and operate a marina on lands within the project boundary. The marina's facilities would include 91 boat slips, a ship store, a 740-foot wave attenuator, a swim area, a fuel dock, and a boat ramp. These facilities would serve the public and residents of the Gaines Bend subdivision, and would provide access to a restaurant and a dry storage facility located adjacent to and outside the project boundary. Prior to filing of the application, the grantee consulted with appropriate agencies and other entities, including the U.S. Fish and Wildlife Service, Texas Parks and Wildlife Department, and Texas Historical Commission.

l. *Locations of the Application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. This filing may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3372 or e-mail FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. *Comments, Protests, or Motions to Intervene:* Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the

Project Number of the particular application to which the filing refers.

p. *Agency Comments:* Federal, State, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

q. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "e-Filing" link.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP10-13-000]

Wyoming Interstate Company, Ltd.; Notice of Application

November 13, 2009.

Take notice that on November 4, 2009, Wyoming Interstate Company, Ltd. (WIC) whose mailing address is Post Office Box 1087, Colorado Springs, Colorado, 80944, filed an Application for a Certificate of Public Convenience and Necessity in Docket No. CP10-13-000, pursuant to Section 7(c) of the Natural Gas Act, to modify existing its facilities, construct and operate new facilities for the WIC 2010 System Enhancement Project, all as more fully set forth in the application on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding WIC's application should be directed to: Richard Derryberry, Director, Regulatory Affairs Department, Wyoming Interstate Company, Ltd., Post Office Box 1087,

Colorado Springs, Colorado 80904;
Phone (719) 520-3782.

The WIC 2010 System Enhancement Project includes: (1) The modification of one of the two Taurus 70 compressor installed at WIC's Wamsutter Compressor Station, in Sweetwater County, Wyoming, to improve delivery capabilities at the Wamsutter Compressor Station (Wamsutter); (2) the modification of piping and measurement facilities at WIC's Cheyenne Compressor Station (Cheyenne) in Weld County, Colorado, to allow for bi-directional flow on WIC's mainline system between Cheyenne and Wamsutter; and (3) the construction of a 2.43-mile, 20-inch lateral pipeline from the modified Wamsutter Compressor Station to a new interconnect and meter station with Questar Overthrust Pipeline Company (Overthrust) and a new interconnection at an existing meter station between WIC and Rockies Express Pipeline, LLC, (REX), all in Sweetwater County, Wyoming.

The proposed project will provide about 285,000 dekatherms per day (Dth/d) of transportation capacity from Cheyenne to Wamsutter with delivery capabilities to Overthrust and REX. So far, 97,500 Dth/d of that amount has been subscribed and the remaining 187,500 MDth/d of east-to west delivery capability will be available at Wamsutter for WIC's existing and new shippers on a primary firm or alternate basis. WIC is requesting that the Section 7(c) authorization for the above activities be issued by June 1, 2010, in order to meet a projected in-service date of October 31, 2010.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests

and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426. There is an "eSubscription" link on the web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s).

Comment Date: December 7, 2009.

Kimberly D. Bose,

Secretary.
