

specified herein. The analysis is summarized as follows:

The objective of the rule is to provide for competition in the acquisition of items for which FPI has a significant market share. The legal basis for the rule is 10 U.S.C. 2410n, as amended by section 827 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110–181). The rule is expected to benefit small business concerns that offer items for which FPI has a significant market share, by permitting those concerns to compete for additional DoD contract awards. The rule also could adversely impact small business concerns that provide supplies and services to FPI relative to the affected items. There are no practical alternatives that would accomplish the objectives of section 827 of Public Law 110–181.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Defense Federal Acquisition Regulation Supplement; Pilot Program for Transition to Follow-On Contracting After Use of Other Transaction Authority (DFARS Case 2008–D030)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD has adopted as final, without change, an interim rule amending the Defense Federal

Acquisition Regulation Supplement (DFARS) to implement section 824 of the National Defense Authorization Act for Fiscal Year 2009. Section 824 amended the DoD pilot program for transition to follow-on contracting after use of other transaction authority, to establish a new program expiration date and to include items developed under research projects within the scope of the program.

DATES: *Effective Date:* November 19, 2009.

FOR FURTHER INFORMATION CONTACT: Ms. Cassandra Freeman, Defense Acquisition Regulations System, OUSD (AT&L) DPAP (DARS), IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301–3062. Telephone 703–602–8383; facsimile 703–602–7887. Please cite DFARS Case 2008–D030.

SUPPLEMENTARY INFORMATION:

A. Background

DoD published an interim rule at 74 FR 2415 on January 15, 2009, to implement section 824 of the National Defense Authorization Act for Fiscal Year 2009 (Pub. L. 110–417). The rule amended the DoD pilot program for transition to follow-on contracting after use of other transaction authority, to establish a new program expiration date and to add items developed under research projects to the types of items to which the program applies. The pilot program provides that certain items that do not otherwise meet the definition of “commercial item” may be treated as commercial items in the award of contracts and subcontracts that follow an other transaction agreement.

DoD received no comments on the interim rule. Therefore, DoD has adopted the interim rule as a final rule without change.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* Although the rule is expected to ease the transition of nontraditional defense contractors from the use of other transaction agreements to standard contracts, the economic impact is not expected to be substantial.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection

requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Defense Federal Acquisition Regulation Supplement; Steel for Military Construction Projects (DFARS Case 2008–D038)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD has adopted as final, without change, an interim rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to implement section 108 of the Military Construction and Veterans Affairs Appropriations Act, 2009. Section 108 requires that American steel producers, fabricators, and manufacturers be given the opportunity to compete for contracts and subcontracts for the acquisition of steel for use in military construction projects or activities.

DATES: *Effective Date:* November 19, 2009.

FOR FURTHER INFORMATION CONTACT: Ms. Amy Williams, Defense Acquisition Regulations System, OUSD (AT&L) DPAP (DARS), IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301–3062. Telephone 703–602–0328; facsimile 703–602–7887. Please cite DFARS Case 2008–D038.

SUPPLEMENTARY INFORMATION:

A. Background

DoD published an interim rule at 74 FR 2417 on January 15, 2009, to implement section 108 of the Military Construction and Veterans Affairs

Appropriations Act, 2009 (Pub. L. 110-329, Division E). Section 108 prohibits the use of funds appropriated in Title I of that Act for the procurement of steel for any military construction project or activity for which American steel producers, fabricators, or manufacturers have been denied the opportunity to compete.

DoD received no comments on the interim rule. Therefore, DoD has adopted the interim rule as a final rule without change.

This rule was subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD has prepared a final regulatory flexibility analysis consistent with 5 U.S.C. 604. A copy of the analysis may be obtained from the point of contact specified herein. The analysis is summarized as follows:

This rule implements section 108 of the Military Construction and Veterans Affairs Appropriations Act, 2009. The objective of the rule is to ensure that American steel producers, fabricators, and manufacturers are given the opportunity to compete for contracts and subcontracts for the acquisition of steel for use in military construction projects and activities. Existing Buy American Act and Balance of Payments Program requirements, implemented in FAR Subpart 25.2 and DFARS Subpart 225.75 respectively, already provide for DoD acquisition of domestic construction materials, including steel. However, this DFARS rule will prohibit use of the exceptions to Buy American Act/Balance of Program requirements otherwise permitted by FAR/DFARS, with regard to the acquisition of steel, unless American steel producers, fabricators, and manufacturers are first provided the opportunity to compete. The rule is expected to benefit American steel producers, fabricators, and manufacturers by ensuring they are provided an opportunity to compete for contracts and subcontracts for the acquisition of steel for use in military construction projects and activities. DoD received no comments on the initial regulatory flexibility analysis or on any other aspect of the interim rule.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

[Docket No. 080521698-9067-02]

RIN 0648-XS87

Fisheries of the Northeastern United States; Northeast Multispecies Fishery; Gear Restriction for the U.S./Canada Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; gear restriction.

SUMMARY: This action modifies the gear requirements for the U.S./Canada Management Area to prohibit all limited access Northeast (NE) multispecies vessels fishing on a NE multispecies day-at-sea (DAS) with trawl gear in the Western U.S./Canada Area south of 41°40' N. lat. from using trawl nets, except if using a properly configured haddock separator trawl or Ruhle trawl. This action is authorized by the regulations implementing Amendment 13 to the NE Multispecies Fishery Management Plan (FMP), and is intended to avoid exceeding the total allowable catch (TAC) for Georges Bank (GB) yellowtail flounder while continuing to allow access to stocks of Eastern GB cod and Eastern GB haddock during the 2009 fishing year (FY). This action is being taken to optimize the harvest of transboundary stocks of GB yellowtail flounder, haddock, and cod under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

DATES: Effective November 20, 2009, through April 30, 2010.

FOR FURTHER INFORMATION CONTACT:

Douglas Potts, Fishery Policy Analyst, (978) 281-6341, fax (978) 281-9135.

SUPPLEMENTARY INFORMATION:

Regulations governing the gear requirements for the U.S./Canada Management Area under the 2009 interim final rule (74 FR 17030, April 13, 2009) are found at § 648.85(a)(3)(ix). The GB yellowtail flounder TAC for FY 2009 (May 1, 2009 - April 30, 2010) was specified at 1,617 mt by the 2009 interim final rule. Once the available TAC for GB yellowtail flounder is projected to be caught, the Administrator, Northeast Region, NMFS (Regional Administrator) is required to close the Eastern U.S./Canada Area to all NE multispecies DAS vessels and prohibit retention of yellowtail flounder in the Western U.S./Canada Area for the remainder of the fishing year, pursuant to § 648.85(a)(3)(iv)(E).

The regulations at § 648.85(a)(3)(iv)(D) authorize the Regional Administrator to modify certain regulations governing the harvesting of fish from the U.S./Canada Management Area, including gear requirements, to prevent over-harvesting or under-harvesting the TAC allocations specified for Eastern GB cod, Eastern GB haddock, or GB yellowtail flounder in the U.S./Canada Management Area. Based upon Vessel Monitoring System (VMS) reports and other available information, the catch of GB yellowtail flounder was at 78 percent of the FY 2009 TAC as of November 4, 2009, and was projected to be fully harvested in early January 2010, resulting in the premature closure of the Eastern U.S./Canada Area and the potential under-harvest of the available TACs for Eastern GB cod and haddock during FY 2009. Recent at-sea observer reports indicate that very high discard rates of GB yellowtail flounder have occurred on some vessels directing on other flatfish. These reports indicate that the high catch rates of yellowtail flounder are being caught primarily south of 41°40' N. lat. Requiring trawl vessels that fish any part of a trip in the Western U.S./Canada Area south of 41°40' N. lat. to use either a haddock separator trawl or a Ruhle trawl would reduce the catch rate of yellowtail flounder, reduce discards, and result in the achievement of the TAC, without exceeding it. Based on this information, the Regional Administrator is prohibiting the use of trawl gear, except for the haddock separator trawl and the Ruhle trawl, as specified at § 648.85(a)(3)(ix) and (b)(10)(iv)(j)(3), respectively, by any limited access NE multispecies vessel which harvests, possesses or lands fish from, or deploys its net during any part
