**SUPPLEMENTARY INFORMATION:** Notice of this meeting is required under the Federal Advisory Committee Act (FACA), Public Law 92-463, as amended (5 U.S.C. App. 1 *et seq.*).

The Department of Homeland Security/Federal Emergency Management Agency (DHS/FEMA) and the Department of Housing and Urban Development (HUD) have recently begun work on an initiative to Strengthen Disaster Recovery for the Nation. At the President's request, the Secretaries of Homeland Security and Housing and Urban Development are co-chairing a Long Term Recovery Working Group composed of the Secretaries and Administrators of more than 20 departments, agencies, and offices. This high-level, strategic initiative will provide operational guidance for recovery organizations as well as make suggestions for future improvement. An intensive stakeholder outreach began in November 2009, involving State, local, and Tribal government representatives, as well as a wide array of private organizations and private non-profit

organizations, to inform these efforts. As a continuation of the stakeholder engagement effort, FEMA will be conducting a public teleconference with the National Advisory Council to brief them on the discussions that took place with stakeholders in November and to obtain the council's input on disaster recovery management issues and opportunities.

The meeting is open to the public. Although members of the public will not be allowed to comment orally during the meeting, they may file a written statement with the NAC before the date of the meeting. For those wishing to submit written comments, please follow the procedure noted above.

Dated: November 17, 2009.

**DEPARTMENT OF THE INTERIOR****National Park Service****National Park Service Benefits-Sharing Final Environmental Impact Statement**

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of Availability of the Servicewide Benefits-Sharing Final Environmental Impact Statement.

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service announces the availability of the Benefits-Sharing Final Environmental Impact Statement (FEIS) covering all units of the National Park System. The NPS requested and considered comments from sources including the public and other agencies in completing the FEIS. Three alternatives were evaluated in the FEIS, each of which would clarify the rights and responsibilities of researchers and National Park Service (NPS) management in connection with the use of valuable discoveries, inventions, and other developments that result from research involving specimens lawfully collected from units of the National Park System. The No Action Alternative allows scientists to conduct research that may lead to commercial products but without any obligation to share the benefits with NPS. Another alternative prohibits scientific research in national parks that is in any way associated with the development of commercial products. A third alternative, the
