

During these meetings, EPA will also solicit input from Regional stakeholders regarding the following:

1. Additional sources of pesticide data and relevant reports.
2. The white paper topics.
3. The availability of data, tools, approaches, and data sets on aquatic toxicity that may be useful for this effort.
4. The types of values that are used by states and/or regions for protecting aquatic life in the absence of ambient water quality criteria.
5. Examples of situations in which differences between OW and OPP assessment approaches were an issue.

Following these meetings, the Agency plans to develop a set of white papers, describing potential new tools and analytical approaches that may be used by the Agency, state pesticide and water quality agencies, and other stakeholders.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background on the Receipt of Requests to Cancel and/or Amend Registrations to Delete Uses

This notice announces receipt by EPA of a request from registrant AMVAC Chemical Corporation to cancel all 3 product registrations for the herbicide difenzoquat. Difenzoquat is registered for use on only two crops, wheat and barley. In a letter dated November 2, 2009, AMVAC Chemical Corporation requested EPA to cancel the affected product registrations identified in Table 1 of this notice. If the registrant's

request is granted, the last difenzoquat products registered in the United States will be canceled effective December 31, 2009.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of a request from a registrant to cancel difenzoquat product registrations. The affected products and the registrants making the requests are identified in Table 1 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless: The registrants request a waiver of the comment period, or; the Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The difenzoquat registrants have requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of this request, an order will be issued canceling the affected registrations.

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Difenzoquat

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before December 28, 2009. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to these requests for cancellation of difenzoquat product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products

identified or referenced in Table 1 in Unit III.

If the request for voluntary cancellation is granted as discussed in this unit, the Agency proposes to issue a cancellation order that will allow AMVAC to sell and distribute existing stocks of the products identified in Unit III. until December 31, 2010. All sale or distribution of existing stocks by AMVAC is prohibited after December 30, 2010, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

The Agency will allow persons other than the registrant to continue to sell and/or use existing stocks of canceled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. The Agency will publish the cancellation order in the **Federal Register**.

II. What Does this Correction Do?

In the **Federal Register** of September 30, 2009 EPA issued a product cancellation order canceling certain rodenticide registrations voluntarily requested by the registrants and accepted by the Agency. Subsequent to the September 30, 2009 publication date, it was determined that some of the products which were listed in Table 1—Rodenticide Product Cancellations, had been cancelled previously. This notice corrects the September 30, 2009 notice and clarifies the provisions for disposition of existing stocks.

FR Doc.E9-23452 published in the **Federal Register** of September 30, 2009 (74 FR 50194) (FRL-8438-6) is corrected as follows:

1. The **DATES** caption on page 50194, is corrected to read:

DATES: The products listed in Table 1 are cancelled on June 4, 2011.

2. On page 50195, table 1 is corrected to read as follows:
