

The information required to be contained in the SPD is set forth in section 102(b) of ERISA. To the extent that there is a material modification in the terms of the plan or a change in the required content of the SPD, section 104(b)(1) of ERISA requires the administrator to furnish participants and specified beneficiaries a summary of material modifications (SMM) or summary of material reductions (SMR). The Department of Labor (Department) has issued regulations providing guidance on compliance with the requirements to furnish SPDs, SMMs, and SMRs. The public is not required to respond to an information collection unless it displays a valid control number. No change to the existing ICR is being proposed or made at this time.

II. Desired Focus of Comments

The Department is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., by permitting electronic submissions of responses.

III. Current Actions

This notice requests comments on an extension of OMB's approval of the information collections included in 29 CFR 2520.102-2, 102-3, and 29 CFR 104b-2 and 104b-3. The Department is not proposing or implementing changes to the existing ICR at this time. A
