Title: Wholesale Contracts for the Purchase and Sale of Electric Power.

OMB Control Number: 0572-0089.

Type of Request: Revision of a currently approved information collection.

Abstract: Most RUS financed electric systems are cooperatives and are organized in a two-tiered structure. Retail customers are members of the distribution system that brings electricity to their homes and business. Distribution cooperatives, in turn, are members of power supply cooperatives, also known as generation and transmission cooperatives (G&T's) that generate or purchase power and transmit the power to the distribution systems.

For a distribution system a lien on the borrower's assets generally represents adequate security. However, since most G&T revenues flow from its distribution members, RUS requires, as a condition of a loan or loan guarantee to a G&T that long-term requirements wholesale power contract to purchase their power from the G&T at rates that cover all the G&T's expenses, including debt service and margins. RUS Form 444 is the standard form of the wholesale power contract. Most borrowers adapt this form to meet their specific needs. The contract is prepared and executed by the G&T and each member and by RUS.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 6 hours per response.

Respondents: Small business or other for-profit; not-for-profit organizations.

Estimated Number of Respondents: 102.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 612 hours.

Copies of this information collection can be obtained from MaryPat Daskal, Program Development and Regulatory Analysis, at (202) 720-7853; FAX: (202) 720-7853.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Dated: November 23, 2009.

SUPPLEMENTARY INFORMATION:

Title: Trade Adjustment Assistance for Farmers.

OMB Number: 0551-0040.

Expiration Date of Approval: February 28, 2010.

Type of Request: Revision to currently approved information collection.

Abstract: The American Recovery and Reinvestment Act of 2009 reauthorizes and modifies the Trade Adjustment Assistance (TAA) for Farmers program as established by Subtitle C of Title I of the Trade Act of 2002, which amended the Trade Act of 1974. Under this program, the U.S. Department of Agriculture (USDA) provides technical assistance and cash benefits to eligible producers of raw agricultural commodities and fishermen when the Foreign Agricultural Service (FAS) Administrator determines that increased imports of raw agricultural

commodities, aquaculture products, or wild-caught aquatic species (jointly referred to as "agricultural commodities") have contributed importantly to a greater than 15 percent decrease in the national average price, or quantity of production, or value of production, or cash receipts for the agricultural commodity specified in the certified petition compared to the average of the three preceding marketing years. The regulation 7 CFR part 1580 established the procedure by which producers of raw agricultural commodities and fishermen can petition (form FAS-930 or a reasonable substitute) for certification of eligibility and apply for technical assistance and cash payments. To receive consideration for TAA for Farmers certification, petitioners must supply the information required by 7 CFR 1580.201. Once a petition has been certified, individuals covered by the certification must apply for TAA for Farmers benefits in accordance with 7 CFR 1580.301. The specific information required on an application (form FSA-229) must be collected from those who wish to receive program benefits. The number of respondents has doubled since the original Paperwork Reduction Act information collection procedure was filed in August 2003. The revision to this information collection is to decrease the total estimated burden hours from 14,000 to 8,750 hours based on changes to previous program eligibility requirements.

Estimated Number of Respondents: 1,250.

Estimated Number of Responses per Respondent: 1.

Estimated Burden of Hours per Response: 7 hours.

Estimated Total Annual Burden on Respondents: 8,750 hours.

Copies of this information collection can be obtained from Tamoria Thompson-Hall, the Agency Information Collection Coordinator, at (202) 690-1690.

later than 60 days from the date of publication to be assured of consideration. All responses to this notice will be summarized and included in the request for OMB approval.
