Motor Carrier Safety Advisory Committee Public Meeting

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of Motor Carrier Safety Advisory Committee meeting.

SUMMARY: FMCSA announces that the Agency's Motor Carrier Safety Advisory Committee (MCSAC) will hold a committee meeting via conference call on December 7, 2009. The conference call is open to the public.

DATES: The meeting will be held by conference call on December 7, 2009, from 8:30 a.m. to 9:30 a.m. Eastern Standard Time.

Matters To Be Considered: The MCSAC will be requested to begin work

on a new task: as part of FMCSA's broad efforts to gather information and recommendations on hours-of-service requirements for drivers of property-carrying vehicles, FMCSA is asking MCSAC to provide advice and recommendations on the hours of service requirements.

FOR FURTHER INFORMATION CONTACT: Mr. Jack Kostelnik, Acting Chief, Strategic Planning and Program Evaluation Division, Office of Policy Plans and Regulation, Federal Motor Carrier Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590, (202) 366-5730, mcsac@dot.gov.

SUPPLEMENTARY INFORMATION:

I. Background

MCSAC

Section 4144 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (Pub. L. 109-59, 119 Stat. 1144, August 10, 2005) required the Secretary of Transportation to establish a Motor Carrier Safety Advisory Committee. The committee provides advice and recommendations to the FMCSA Administrator on motor carrier safety programs and regulations, and operates in accordance with the Federal Advisory Committee Act (5 U.S.C. App 2).

Hours-of-Service Task

On October 26, 2009, Public Citizen, *et al.* (Petitioners) and FMCSA entered into a settlement agreement under which Petitioners' petition for judicial review of the November 19, 2008 Final Rule on drivers' hours of service will be held in abeyance pending the publication of a Notice of Proposed Rulemaking (NPRM). The settlement agreement states that FMCSA will submit the draft NPRM to the Office of Management and Budget (OMB) within nine months of the date of the settlement agreement and that FMCSA will publish a Final Rule within 21 months of the date of the settlement agreement. The current rule will remain in effect during the rulemaking proceedings.

Assigning MCSAC this task is one of several steps that FMCSA will be undertaking in its process of proposing hours-of-service requirements for drivers of property-carrying vehicles. Other steps will include public listening sessions across the country and the opportunity for public comment on the forthcoming NPRM.

II. Meeting Participation

The meeting is open to the public and FMCSA seeks participation by all interested parties, including safety advocacy groups, State safety agencies, motor carriers, motor carrier associations, owner-operators, drivers, and labor unions. For information on the agenda, bridge line and web link for the conference call, please send an e-mail to mcsac@dot.gov. For information on services for individuals with disabilities or to request special assistance, please e-mail your request to mcsac@dot.gov by December 4, 2009.

Please note that oral comments will not be taken during this conference call from the public due to time limitations. Members of the public may submit written comments on this topic by December 3, 2009, to Federal Docket Management System (FDMS) Docket Number FMCSA-2006-26367 using any of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- **Fax:** 202-493-2251.
- **Mail:** Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building, Room W12-140, Washington, DC 20590.
- **Hand Delivery:** U.S. Department of Transportation, 1200 New Jersey Avenue, SE., Room W12-140, Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Issued on: November 24, 2009.

Background

On September 22, 2009, FMCSA published a notice of receipt of Federal diabetes exemption applications from twenty-three individuals and requested comments from the public (74 FR 48338). The public comment period closed on October 22, 2009, and no comments were received.

FMCSA has evaluated the eligibility of the twenty-three applicants and determined that granting the exemptions to these individuals would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation 49 CFR 391.41(b)(3).

Diabetes Mellitus and Driving Experience of the Applicants

The Agency established the current standard for diabetes in 1970 because several risk studies indicated that diabetic drivers had a higher rate of crash involvement than the general population. The diabetes rule provides that "A person is physically qualified to

drive a commercial motor vehicle if that person has no established medical history or clinical diagnosis of diabetes mellitus currently requiring insulin for control" (49 CFR 391.41(b)(3)).

FMCSA established its diabetes exemption program, based on the Agency's July 2000 study entitled "A Report to Congress on the Feasibility of a Program to Qualify Individuals with Insulin-Treated Diabetes Mellitus to Operate in Interstate Commerce as Directed by the Transportation Act for the 21st Century." The report concluded that a safe and practicable protocol to allow some drivers with ITDM to operate CMVs is feasible. The September 3, 2003 (68 FR 52441) **Federal Register** Notice in conjunction with the November 8, 2005 (70 FR 67777) **Federal Register** Notice provides the current protocol for allowing such drivers to operate CMVs in interstate commerce.

These twenty-three applicants have had ITDM over a range of 1 to 39 years. These applicants report no hypoglycemic reaction that resulted in loss of consciousness or seizure, that required the assistance of another person, or resulted in impaired cognitive function without warning symptoms in the past 5 years (with one year of stability following any such episode). In each case, an endocrinologist has verified that the driver has demonstrated willingness to properly monitor and manage his/her diabetes, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes-related complications. Each meets the vision standard at 49 CFR 391.41(b)(10).

The qualifications and medical condition of each applicant were stated and discussed in detail in the September 22, 2009, **Federal Register** Notice, therefore, they will not be repeated in this notice.

Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the diabetes standard in 49 CFR 391.41(b)(3) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. The exemption allows the applicants to operate CMVs in interstate commerce.

To evaluate the effect of these exemptions on safety, FMCSA considered medical reports about the applicants' ITDM and vision, and reviewed the treating endocrinologists' medical opinion related to the ability of
