

2009). On August 12, 2009, NTIA issued a clarification of the information collection requirements in the NOFA (See 74 FR 40569, Aug. 12, 2009). On September 10, 2009, NTIA issued an additional clarification announcing that NTIA will initially fund mapping and data collection efforts for two years to enable the agency to assess lessons learned, determine best practices, and investigate opportunities for improved data collection prior to obligating funding for subsequent years (See 74 FR 46573, Sept. 10, 2009). Applications for the grant program were received until August 14, 2009 and NTIA received applications representing all 50 States, 5 territories, and the District of Columbia.

Each applicant for program funding submitted an application, on standard OMB-approved forms, proposing data collection through five years and providing five-year budgets. Applicants provided comprehensive descriptions of their plans to obtain and verify required data from all commercial or public providers in their respective states. Data collection and verification methods may vary between applicants and may include online and on-the-ground surveys of providers and the public, Web-enabled data searches, statistical modeling, drive testing of spectrum use and crowd-sourced data reporting. Data must be collected at least semiannually and initial data collection is due on February 1, 2010. On October 5, 2009, NTIA announced that it awarded the first four grants under the SBDD program to fund data collection in California, Indiana, North Carolina, and Vermont.

Pasta From Italy: Extension of Time Limits for the Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Victoria Cho at (202) 482-5075, AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW., Washington, DC 20230.

Background

On August 26, 2008, the U.S. Department of Commerce (Department) published a notice of initiation of the administrative review of the antidumping duty order on certain pasta from Italy, covering the period July 1, 2007, to June 30, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 73 FR 50308 (August 26, 2008). On August 6, 2009, the Department published the preliminary results of this review. See *Certain Pasta from Italy: Notice of Preliminary Results of Twelfth Antidumping Duty Administrative Review*, 74 FR 39285 (August 6, 2009).

The final results of this review are currently due no later than December 4, 2009.

Extension of Time Limit of the Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (Act), requires the Department to issue the final results of a review within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days. See also 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the original time limit because the Department is considering modifying the model-match methodology, which is a complex issue that requires additional time to adequately analyze. Therefore, the Department is fully extending the final results. The final results are now due no later than February 2, 2010.

This extension is in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2).

Dated: November 17, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

Background

On July 24, 2009, the Department published its preliminary results of the second administrative review. See *Certain Lined Paper Products from the People's Republic of China: Notice of Preliminary Results of the Antidumping Duty Administrative Review*, 74 FR 36662 (July 24, 2009) ("Preliminary Results"). On August 25, 2009, Watanabe Paper Products (Shanghai) Co., Ltd., Watanabe Paper Products (Lingling) Co., Ltd., and Hotrock Stationery (Sennzhen) Co., Ltd., (collectively, "Watanabe") filed its case brief ("Watanabe Case Brief"). On August 24, 2009, Watanabe requested a hearing regarding the second administrative review of CLPP from the PRC. The Department conducted the hearing on September 16, 2009. We have conducted this administrative review in accordance with sections 751 and 777(i)(1) of the Tariff Act of 1930, as amended ("the Act"), and 19 CFR 351.213 and 351.221, as appropriate.

Period of Review

The POR is September 1, 2007, through August 31, 2008.

Scope of the Order

The scope of this order includes certain lined paper products, typically school supplies (for purposes of this scope definition, the actual use of or labeling these products as school supplies or non-school supplies is not a defining characteristic) composed of or including paper that incorporates straight horizontal and/or vertical lines on ten or more paper sheets (there shall be no minimum page requirement for looseleaf filler paper) including but not limited to such products as single- and multi-subject notebooks, composition books, wireless notebooks, looseleaf or glued filler paper, graph paper, and laboratory notebooks, and with the smaller dimension of the paper measuring 6 inches to 15 inches (inclusive) and the larger dimension of the paper measuring 8¾ inches to 15 inches (inclusive). Page dimensions are measured size (not advertised, stated, or "tear-out" size), and are measured as they appear in the product (*i.e.*, stitched

and folded pages in a notebook are measured by the size of the page as it appears in the notebook page, not the size of the unfolded paper). However, for measurement purposes, pages with tapered or rounded edges shall be measured at their longest and widest points. Subject lined paper products may be loose, packaged or bound using any binding method (other than case bound through the inclusion of binders board, a spine strip, and cover wrap). Subject merchandise may or may not contain any combination of a front cover, a rear cover, and/or backing of any composition, regardless of the inclusion of images or graphics on the cover, backing, or paper. Subject merchandise is within the scope of this order whether or not the lined paper and/or cover are hole punched, drilled, perforated, and/or reinforced. Subject merchandise may contain accessory or informational items including but not limited to pockets, tabs, dividers, closure devices, index cards, stencils, protractors, writing implements, reference materials such as mathematical tables, or printed items such as sticker sheets or miniature calendars, if such items are physically incorporated, included with, or attached to the product, cover and/or backing thereto.

Specifically excluded from the scope of this order are:

- Unlined copy machine paper;
- Writing pads with a backing (including but not limited to products commonly known as "tablets," "note pads," "legal pads," and "quadrille pads"), provided that they do not have a front cover (whether permanent or removable). This exclusion does not apply to such writing pads if they consist of hole-punched or drilled filler paper;
- Three-ring or multiple-ring binders, or notebook organizers incorporating such a ring binder provided that they do not include subject paper;
- Index cards;
- Printed books and other books that are case bound through the inclusion of binders board, a spine strip, and cover wrap;
- Newspapers;
- Pictures and photographs;
- Desk and wall calendars and organizers (including but not limited to such products generally known as "office planners," "time books," and "appointment books");
- Telephone logs;
- Address books;
- Columnar pads & tablets, with or without covers, primarily suited for the recording of written numerical business data;
