

seals could pass through the area at any given hour (between zero and four seals have been sighted per hour at the northern East Span Bay Bridge project location). Pile driving is expected to last a maximum of two hours per day; therefore eight seals per day could be exposed to harassment level noise for approximately 4 months. Therefore, Caltrans is requesting the take, by Level B harassment only, 1,120 harbor seals.

Because there are no California sea lion haul-out sites in the South Bay, sea lions are expected to be incidental visitors to the area. Given the limited sightings in the South Bay and the distance to the nearest haul-out, Caltrans is requesting the take of 10 adult sea lions. Similarly, gray whales are rare in the southern portion of the Bay however they may be present resulting in Caltrans requesting authorization to harass two gray whales per year incidental to the proposed action.

Preliminary Determination

Based on the analysis contained herein of the likely effects of the specified activity on marine mammals and their habitat, and taking into consideration the implementation of the mitigation and monitoring measures, NMFS preliminarily finds that pile driving associated with the Dumbarton Bridge Seismic Retrofit Project will result in the incidental take of small numbers of marine mammals, by Level B harassment only, and that the total taking from will have a negligible impact on the affected species or stocks. No subsistence hunting of marine mammals occur in the region; therefore, no impact on the availability of a species or stock for subsistence use would occur.

Endangered Species Act (ESA)

On January 12, 2009, NMFS received a request from the Federal Highway Administration (FHWA) to initiate consultation under section 7 of the ESA on Caltrans' proposed Dumbarton Bridge Seismic Retrofit Project as ESA-listed fish are present within the action area. NMFS issued a Biological Opinion (BiOp) on Caltrans' Dumbarton Bridge Seismic Retrofit Project on August, 10, 2009. The BiOp concluded that the proposed activities were not likely to jeopardize the continued existence of Central California Coast steelhead Distinct Population Segment (DPS) or North American green sturgeon DPS and are not likely to adversely modify or destroy critical habitat for CCC steelhead DPS.

NMFS has determined that no ESA listed marine mammal species are likely

to be affected by the proposed action as none are present within the action area; therefore, ESA consultation on issuance of the proposed IHA is not warranted.

National Environmental Policy Act (NEPA)

NOAA Administrative Order Series 216-6, May 20, 1999 (NAO), identifies issuance of IHAs as a type of Federal action that may be categorically excluded from preparation of an environmental assessment or environmental impact statement. In determining whether a categorical exclusion (CE) is appropriate for a given IHA, NMFS must consider: (1) factors listed in Section 5.05b of the NAO regarding prior analysis for the "same" action; (2) context and intensity of impacts, as defined in 40 CFR 1508.27; and (3) factors listed in Section 5.05c of the NAO regarding exceptions to CEs. NMFS has prepared, supplemented, or adopted numerous EAs leading to Findings of No Significant Impact (FONISIs) for pile driving activities similar to the proposed activity, including ones for Caltrans' projects which involved driving larger piles in the northern section of the Bay where pinniped and cetacean species are more abundant. Based on these previous NEPA analyses and the analysis contained within this notice, NMFS has determined that issuance of a one-year IHA to Caltrans for the taking, by Level B harassment only, incidental to the Dumbarton Bridge Seismic Retrofit project does not have the potential to result in any significant changes to the human environment. Therefore, the issuance of an IHA to Caltrans for the specified activity falls under the category of those actions which can be categorically excluded from the need to prepare an Environmental Assessment or Environmental Impact Statement.

SUPPLEMENTARY INFORMATION:

Additions

On 9/11/2009 (74 FR 46748-46749) and 10/9/2009 (74 FR 52186), the Committee for Purchase From People Who Are Blind or Severely Disabled published notices of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to furnish a product and a service and impact of the additions on the current or most recent contractors, the Committee has determined that the product and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish a product and a service to the Government.

2. The action will result in authorizing small entities to furnish a product and a service to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with a product and a service proposed for addition to the Procurement List.

End of Certification

Accordingly, the following product and service are added to the Procurement List:
