DEPARTMENT OF HEALTH AND HUMAN SERVICES

Indian Health Service

Request for Public Comment: 60-Day Proposed Information Collection: Indian Health Service Medical Staff Credentials and Privileges Files

AGENCY: Indian Health Service, HHS.

ACTION: Notice.

SUMMARY: The Indian Health Service (IHS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the IHS is providing a 60-day advance opportunity for public comment on a proposed new collection of information to be submitted to the Office of Management and Budget for review.

Proposed Collection: Title: 0917-0009, "Indian Health Service Medical Staff Credentials and Privileges Files." *Type of Information Collection Request:* Extension, without revision, of currently approved information collection, 0917-0009, "Indian Health Service Medical Staff Credentials and Privileges Files" agreement. *Form Number(s):* None. *Need and Use of Information Collection:* This collection of information is used to evaluate individual health care providers applying for medical staff privileges at IHS health care facilities.

The Health and Human Services operates health care facilities that provide health care services to American Indians and Alaska Natives. To provide these services, the IHS employs (directly and under contract) several categories of health care providers including: Physicians (M.D. and D.O.), dentists, psychologists, optometrists, podiatrists, audiologists, physician assistants, certified registered nurse anesthetists, nurse practitioners, and certified nurse midwives. IHS policy specifically requires physicians and dentists to be members of the health care facility medical staff where they practice. Health care providers become medical staff members, depending on the local health care facility's capabilities and medical staff bylaws. There are three types of IHS medical staff applicants: (1) Health care providers applying for direct employment with IHS; (2) contractors who will not seek to become IHS employees; and (3) employed IHS health care providers who seek to transfer between IHS health care facilities.

National health care standards developed by the Centers for Medicare and Medicaid Services (formerly the Health Care Financing Administration),

the Joint Commission on the Accreditation of Healthcare Organizations (JCAHO), and other accrediting organizations require health care facilities to review, evaluate and verify the credentials, training and experience of medical staff applicants prior to granting medical staff privileges. In order to meet these standards, IHS health care facilities require all medical staff applicants to provide information concerning their education, training, licensure, and work experience and any adverse disciplinary actions taken against them. This information is then verified with references supplied by the applicant and may include: Former employers, educational institutions, licensure and certification boards, the American Medical Association, the Federation of State Medical Boards, the National Practitioner Data Bank, and the applicants themselves.

In addition to the initial granting of medical staff membership and clinical privileges, JCAHO standards require that a review of the medical staff be conducted not less than every two years. This review evaluates the current competence of the medical staff and verifies whether they are maintaining

the licensure or certification requirements of their specialty.

The medical staff credentials and privileges records are maintained at the health care facility where the health care provider is a medical staff member. The establishment of these records at INS health care facilities is not optional; such records must be established and accredited by JCAHO. Prior to the establishment of this JCAHO requirement, the degree to which medical staff applications were maintained at all health care facilities in the United States that are verified for completeness and accuracy varied greatly across the Nation.

The application process has been streamlined and is using information technology to make the application electronically available on the Internet. *Affected Public:* Individuals and households. *Type of Respondents:* Individuals.

The table below provides: Types of data collection instruments, Estimated number of respondents, Number of annual number of responses, Average burden per response, and Total annual burden hours.

assumptions used to determine the estimate is logical; (e) ways to enhance the quality, utility, and clarity of the information being collected; and (f) ways to minimize the public burden through the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Jail Diversion and Trauma Recovery—Priority to Veterans Program Evaluation—NEW

The Substance Abuse and Mental Health Services Administration’s (SAMHSA), Center for Mental Health Services (CMHS) has implemented the Jail Diversion and Trauma Recovery

Program (JDTR)—Priority to Veterans to support local implementation and State-wide expansion of trauma-integrated jail diversion programs to reach individuals with post traumatic stress disorder (PTSD) and trauma related disorders involved in the justice system. JDTR requires grantees to implement a State infrastructure program linked to a local pilot criminal justice diversion project. At the State level, the State Mental Health Authority (SMHA) will convene a State Advisory Committee that provides oversight of pilot projects’ training, diversion, service delivery and local project evaluation, as well as design and implement plans to disseminate knowledge about effective pilot projects and to replicate them in other communities in the State.

CMHS is requesting approval from the Office of Management and Budget (OMB) to implement a data collection document, the Semi-Annual Progress Report (SAPR), to evaluate the implementation, expansion, and sustainability of jail diversion and trauma informed services developed under the JDTR program.

The current proposal requests implementing the Semi-Annual Progress Report (SAPR) to collect information in the following areas:

a. Document the State and pilot level goals for the project;

b. Describe the project environment, including changes that have helped or hindered implementation;

c. Estimate project spending on State, pilot, and evaluation activities;

d. Describe activities and progress on State level infrastructure change components, including barriers to progress;

e. Report on pilot project progress, including activities related to the pilot program, changes to program plans, and barriers to implementation;

f. Describe any project accomplishments, including documenting numbers and types of trainings, as well as any policy changes; and

g. Describe and update progress in meeting cross-site client evaluation requirements.

This information would be collected twice a year: in March and September. Six grantees were awarded 5-year grants in FY 2008 and six more 5-year grants were funded in FY2009. The six FY 2008 grantees piloted the data collection instrument in March of FY 2009. The six additional grantees awarded on September 30, 2009 would commence data collection in March of FY 2010. The burden estimate for completing the SAPR is as follows:

FY 2010 ANNUAL REPORTING BURDEN
