

been tasked with implementing the Biomass Crop Assistance Program (BCAP) authorized by section 9001 of the 2008 Farm Bill (Pub. L. 220-246), which amends Title IX of the Farm Security and Rural Investment Act of 2002 and adds section 9011 for BCAP. On May 5, 2009, the President issued a Presidential Directive to the Secretary of Agriculture to aggressively accelerate the investment in and production of biofuels. The Presidential Directive requests that the Secretary of Agriculture take steps to the extent permitted by law to expedite and increase production of and investment in biofuel development efforts by making renewable energy financing opportunities and including guidance and support for the collection, harvest, storage, and transportation (CHST) assistance of eligible materials for use in biomass conversion facilities.

Need and Use of the Information: Information collected will be collected using forms AD-245 and AD-247. The collected information from eligible biomass owners and biomass conversion facilities meeting the requirements for CHST qualification is necessary in order to ensure the financial accountability needed to operate and administer the BCAP. The information will be used to produce reports, as needed by FSA to inform the public how FSA has administered CHST funds at the State and country levels and to establish a list of CHST qualified biomass conversion facilities.

Description of Respondents: Farm; Business or other for-profit.

Number of Respondents: 5,600.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 38,700.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau is requesting clearance for the collection of data concerning the Fertility Supplement to be conducted in conjunction with the June 2010 CPS. The Census Bureau sponsors the supplement questions, which were previously collected in June 2008, and have been asked periodically since 1971.

This survey provides information used mainly by government and private analysts to project future population growth, to analyze child spacing, and to aid policymakers in their decisions affected by changes in family size and composition. Past studies have discovered noticeable changes in the patterns of fertility rates and the timing of the first birth. Potential needs for government assistance, such as aid to families with dependent children, child care, and maternal health care for single parent households, can be estimated using CPS characteristics matched with fertility data.

II. Method of Collection

The fertility information will be collected by both personal visit and telephone interviews in conjunction with the regular June CPS interviewing. All interviews are conducted using computer-assisted interviewing.

III. Data

OMB Number: 0607-0610.

Form Number: There are no forms.

We conduct all interviewing on computers.

Type of Review: Regular.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 30,000.

Estimated Time per Response: 30 seconds.

Estimated Total Annual Burden Hours: 250.

Estimated Total Annual Cost: There are no costs to the respondents other than their time to answer the CPS questions.
