information and be based on the most
recent five year period for which data
are available. As requested, each
industry profile, to the extent possible,
will include the following information:

industry(ies) within ASEAN, including
the industry's position relative to global
competitors, as it relates to export
competitiveness and inbound
investment flows;

ASEAN exporting countries and their
key markets;

ASEAN country recipients of inbound
investment and source countries of that
investment;

countries within ASEAN that have
experienced significant integration
related to industry production and/or
marketing; and
5. An analysis of leading competitive
factors that have contributed to changes
in industry regional integration, export
competitiveness, and inbound
investment, with a focus on how
regional improvements in trade
