Fermi Research Alliance LLC, et al., Notice of Decision on Applications for Duty-Free Entry of Scientific Instruments

This is a decision pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of

1966 (Pub. L. 89-651, as amended by Pub. .106-36; 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 3705, U.S. Department of Commerce, 14th and Constitution Ave, NW, Washington, D.C.

Comments: None received. Decision: Approved. We know of no instruments of equivalent scientific value to the foreign instruments described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of its order.

Docket Number: 09-059. Applicant: Fermi Research Alliance LLC-Fermi National Accelerator Laboratory, Batavia, IL 60510. Instrument: Wavelength Shifting Fiber. Manufacturer: Kuraray Co., Ltd., Japan. Intended Use: See notice at 74 FR 58002, November 10, 2009.

Reasons: The wavelength shifting fibers must be .7mm in diameter and 32 meters in length. Further, the light generated in the fiber must not suffer unacceptable attenuation in traveling down 16-20 m of the WLS fiber. As such, a pertinent characteristic of this instrument is that it have an attenuation length of >20m. We know of no instrument suited to these purposes, which was being manufactured in the United States at the time of order of this instrument.

Docket Number: 09-063. Applicant: Argonne National Laboratory, Lemont, IL 60439. Instrument: CEOS Spherical Aberration Corrector. Manufacturer: CEOS Corrected Electron Optical Systems, GmbH, Germany. Intended Use: See notice at 74 FR 58002, November 10, 2009. Reasons: A pertinent characteristic of this instrument is that it must be capable of compensating completing the spherical aberration of the low field objective lens on the 2100F TEM to which it will be attached. The spherical aberration coefficient of this lens is 200 mm. In addition, the CEOS aberration corrector can compensate this value of spherical aberration while only increasing the chromatic aberration by approximately 20%. We know of no instrument suited to these purposes, which was being manufactured in the United States at the time of order of this instrument.

Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, from the People's Republic of China; Extension of Time Limit for the Final Results of the 2007-2008 Administrative Review of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

FOR FURTHER INFORMATION CONTACT: Frances Veith or Brendan Quinn, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230, telephone: (202) 482-4295 or (202) 482-5848, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 30, 2008, the Department of Commerce ("Department") initiated the administrative review of the antidumping duty order on tapered roller bearings and parts thereof, finished or unfinished ("TRBs"), from the People's Republic of China ("PRC") for the period June 1, 2007, through May 31, 2008. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews, Request for Revocation in Part, and Deferral of Administrative Review*, 73 FR 44220 (July 30, 2008). On July 8, 2009, the Department published its preliminary results on TRBs from the PRC. *See Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from the People's Republic of China: Preliminary Results of the 2007-2008 Administrative Review of the Antidumping Duty Order*, 74 FR 32539 (July 8, 2009). On October 15, 2009, the Department extended the deadline for the final results by 30 days. *See Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, from the People's Republic of China; Extension of Time Limit for the Final Results of the 2007-2008 Administrative Review of the Antidumping Duty Order*, 74 FR 52948 (October 15, 2009). The final results of this administrative review are currently due no later than December 5, 2009.

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results in an administrative review within 120 days after the date on which

the preliminary results are published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 180 days.

We determine that it is not practicable to complete the final results of this review within the extended time limit because the Department requires additional time to analyze issues raised in parties' briefs and rebuttal briefs, which were also discussed in meetings with counsel for the parties, such as, surrogate values and third-country processing. Therefore, given the complexity of the issues in this case, we are extending the time limit for completion of the final results by an additional 21 days.

An extension of 21 days from the current deadline of December 5, 2009, would result in a new deadline of December 26, 2009. However, since December 26, 2009, falls on a Saturday, a non-business day, the final results will now be due no later than December 28, 2009, the next business day.

This notice is published pursuant to sections 751(a) and 777(i) of the Act.

Dated: December 1, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

Background

On August 7, 2009, the Department of Commerce (the Department) published the preliminary results of the administrative review of the

countervailing duty order on polyethylene terephthalate (PET) film, sheet, and strip from India. See *Polyethylene Terephthalate Film, Sheet, and Strip from India: Preliminary Results of Countervailing Duty Administrative Review*, 74 FR 39631 (August 7, 2009). This administrative review covers the period January 1, 2007 through December 31, 2007. The current deadline for the final results of review is December 5, 2009. This review covers one producer/exporter of the subject merchandise to the United States, Jindal Poly Films Ltd. (Jindal), as well as the Government of India (GOI).

Extension of Time Limit for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.213(h)(1), the Department shall issue final results in an administrative review of a countervailing duty order within 120 days after the date on which notice of the preliminary results was published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 120-day period to 180 days.

Pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we determine that it is not practicable to complete the results of this review within the original time limit. The Department needs additional time to analyze the supplemental questionnaire responses, which were recently submitted, and to determine whether any additional information is required. In accordance with section 751(a)(3)(A) of the Act, the Department has decided to extend the time limit for the final results from 120 days to 180 days; the final results will now be due no later than February 3, 2010.
