DEPARTMENT OF COMMERCE

International Trade Administration

2009 Calculation of Expected Non-Market Economy Wages

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Finalization and Effective Date of 2009 Expected Non-Market Economy Wage Calculation.

SUMMARY: On October 7, 2009, the Department of Commerce (“Department”) published the preliminary calculation of the 2009 expected non-market economy (“NME”) wages, and provided the public with an opportunity to comment on potential clerical errors. See *Expected Non-Market Economy Wages: Request for Comments on 2009 Calculation*, 74 FR 51555 (October 7, 2009) (“2009 preliminary calculation”). The 2009

calculation was based on 2007 data and the methodology described in the *Antidumping Methodologies: Market Economy Inputs, Expected Non-Market Economy Wages, Duty Drawback; and Request for Comments*, 71 FR 61716, October 19, 2006 (“*Antidumping Methodologies Notice*”). Subsequently, the Department received comments from King & Spalding LLP on behalf of U.S. domestic industry (“domestic industry”) regarding the Department’s 2009 preliminary calculation, as further discussed below. The Department received no other comments. This notice constitutes the Department’s announcement of the finalization and effective date of the 2009 calculation.

DATES: These expected NME wage rates are finalized on the date of publication of this notice in the **Federal Register** and will be in effect for all antidumping proceedings for which the Department’s final decision is due after the publication of this notice.

FOR FURTHER INFORMATION CONTACT:

Bobby Wong, International Trade Analyst, Operations Office IX, or Christopher Mutz, Import Policy Analyst, Office of Policy, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-0409 and (202) 482-0235, respectively.

SUPPLEMENTARY INFORMATION: Domestic industry claims that the Department committed several clerical errors in its calculation of the surrogate wage rate, which should be correct for the final calculation.

Domestic industry claims that the Department erred by applying International Labour Statistics (“ILO”) “wages” data rather than “earnings” data of five countries. Domestic industry cites the *Antidumping Methodologies Notice*, which specifies that the Department will only use reported earnings data, and should therefore exclude from the dataset countries for which there is no available earnings data, including Honduras, Indonesia, Peru, and the Philippines. However, domestic industry claims that, while the Department erred by applying wages data for Hong Kong, the ILO also reported suitable Hong Kong earnings data, and should therefore revise the dataset to include the Hong Kong earnings data rather than wages data.

Also, domestic industry claims that the Department erred by selecting 2006 ILO data for Germany over base year 2007 data. Domestic industry asserts that the *Antidumping Methodologies Notice* specifies that the Department
