The Honorable Nancy Pelosi  
Speaker  
U.S. House of Representatives  
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 09-69, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to the United Arab Emirates for defense articles and services estimated to cost \$2 billion. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeffrey A. Wieringa".

**Jeffrey A. Wieringa**  
Vice Admiral, USN  
Director

\* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONUnited Arab Emirates – CH-47F CHINOOK Helicopters

The Government of United Arab Emirates (UAE) has requested a possible sale of sixteen CH-47F CHINOOK Helicopters, 38 T55-GA-714A Turbine engines, 20 AN/APX-118 Transponders, 20 AN/ARC-220 (RT-1749) Single Channel Ground and Airborne Radio Systems (SINCGARS) with Electronic counter-countermeasures, 40 AN/ARC-231 (RT-1808A) Receiver/Transmitters, 18 AN/APR-39A(V)1 Radar Signal Detecting Sets with Mission Data Sets, flight and radar signal simulators, support equipment, spare and repair parts, publications and technical documentation, site survey, construction and facilities, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner/ally, which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide the United Arab Emirates the capability to transport equipment and troops in the region, as well as to support U.S. and NATO airlift requirements in Afghanistan.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Boeing Integrated Defense Systems in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of four contractor representatives in the UAE for a period of one year with an option for two additional years. One additional U.S. government and four contractor representatives will be required for a one-week interval for quality assurance during helicopter delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 09-69

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control ActAnnex  
Item No. vii(vii) Sensitivity of Technology:

1. The CH-47F CHINOOK is a medium lift helicopter, remanufactured from CH-47D aircraft with the Common Avionics Architecture System (CAAS) cockpit, which provides aircraft system, flight, mission, and communication management systems, five multifunction displays, two general purpose processor units, two control display units and two data concentrator units. The Navigation System will have two Embedded GPS/INS, two Digital Advanced Flight Control Systems (DAFCS), one ARN-149 Automatic Direction Finder, one ARN-147 (VOR/ILS marker Beacon System), one ARN-153 TACAN, two air data computers, and one Radar Altimeter system. The aircraft survivability equipment includes the APR-39A(V)1 Radar Signal Detecting Set, AN/AAR-57 Common Missile Warning System which consists of the AN/ALQ-212 Advanced Threat Infrared Countermeasures. The CH-47F CHINOOK Helicopter includes the following sensitive and/or classified, up to and including, Secret components:

a. The AN/ARC-201E Single Channel Ground and Airborne Radio System (SINGARS) is a tactical airborne radio subsystem that provides secure, anti-jam voice and data communication. The enhanced Data Modes (EDM) of the radio employs a Reed-Solomon Forward Error Correction (FEC) technique that provides enhanced bit-error-rate performance. The EDM Packet Data Mode supports packet data transfer from the airborne host computer to another airborne platform or the ground-based equivalent SINGARS system. Performance capabilities, ECM/ECCM specifications and Engineering Change Orders (ECOs) are classified Secret.

b. The AN/APX-118 transponder system provides automatic radar identification of the helicopter. The system receives, decodes, and replies to interrogations on modes 1,2,3/A,4,C and S from all suitable equipped challenging airborne and ground facilities. The receiver operates on 1,300 MHZ and the transmitter section operates on a frequency of 1090MHZ. Because these frequencies are in the UHF band, the operational range is limited to line-of-site. The transponder is classified Secret if MODE IV or MODE S fill is installed in the equipment with a crypto device.

c. The AN/APR-39A(V)1 Radar Detecting Set (RDS) is a lightweight radar receiver for general aircraft application used on the majority of U.S. Army aircraft platforms to

include the CH-47F aircraft. The system provides warning of radar directed threats to allow appropriate evasive maneuvers and deployment of chaff. The system has the capability of detecting all pulse radar normally associated with hostile surface-to-air missiles, airborne intercepts and anti-aircraft weapon systems. The system has 10 individually housed components consisting of one control, one indicator, one comparator, two receivers, two left spiral antennas, two right spiral antennas and one blade antenna. The AN/APR-39 Series Radar Detecting Sets (RDS) are sensitive items and classified Secret if the Unit Data Module has threat data software installed.

d. The AN/AAR-57 Common Missile Warning System detects threat missiles in flight, evaluates potential false alarms, declares validity of threat and selects appropriate Infrared Counter Measures (IRCM). Includes Electro-Optical Missile Sensors, Electronic Control Unit (ECU), Sequencer and Improved Countermeasures Dispenser (ICMD). The hardware is classified Confidential; releasable technical manuals for operation and maintenance are classified Secret.

e. The AN/ARC-231 Receiver/Transmitter, RT-1808A is an airborne VHF/UHF Line-of-Sight with frequency agile modes, UHF Satellite Communications (SATCOM), and Demand Assigned Multiple Access (DAMA) Radio System. The ARC-231 provides airborne, multi-band, multi-mission, secure anti-jam voice, data and imagery network capable communications in a compact radio set. The AN/ARC-231 is classified as a Controlled Cryptographic Item (CCI); however, depending upon the software load, this radio may be classified as Secret.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

**Transmittal No. 09-70**

The following is a copy of a letter to the Speaker of the House of

Representatives, Transmittals 09-70 with attached transmittal, policy

justification, and Sensitivity of Technology.

POLICY JUSTIFICATION

Turkey – CH-47F CHINOOK Helicopters

The Government of the Turkey has requested a possible sale of fourteen CH-47F CHINOOK Helicopters, 32 T55-GA-714A Turbine engines, 28 AN/ARC-201E Single Channel Ground and Airborne Radio Systems (SINCGARS), 14 AN/APR-39A(V)1 Radar Signal Detecting Sets, support equipment, special tools and test equipment, spare and repair parts, publications and technical documentation, site survey, personnel training and training equipment, ferry services, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$1.2 billion.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale will improve Turkey's capability to meet current and future requirements for troop movement, medical evacuation, aircraft recovery, parachute drop, search and rescue, disaster relief, fire-fighting, and heavy construction. Turkey will use these helicopters to strengthen its homeland defense, deter regional threats, and improve humanitarian and disaster mobilization and response.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company of Ridley Park, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Turkey.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 09-70

Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control ActAnnex  
Item No. vii(vii) Sensitivity of Technology:

1. The CH-47F CHINOOK is a medium lift helicopter, remanufactured from CH-47D aircraft with the Common Avionics Architecture System (CAAS) cockpit, which provides aircraft system, flight, mission, and communication management systems, five multifunction displays, two general purposed processor units, two control display units and two data concentrator units. The Navigation System will have two Embedded GPS/INS, two Digital Advanced Flight Control Systems (DAFCS), one ARN-149 Automatic Direction Finder, one ARN-147 (VOR/ILS marker Beacon System), one ARN-153 TACAN, two air data computers, and one Radar Altimeter system. The aircraft survivability equipment includes the APR-39A(V)1 Radar Signal Detecting Set, AN/AAR-57 Common Missile Warning System which consists of the AN/ALQ-212 Advanced Threat Infrared Countermeasures. The CH-47F CHINOOK Helicopter includes the following sensitive and/or classified, up to and including, Secret components:

a. The AN/ARC-201E Single Channel Ground and Airborne Radio System (SINGARS) is a tactical airborne radio subsystem that provides secure, anti-jam voice and data communication. The enhanced Data Modes (EDM) of the radio employs a Reed-Solomon Forward Error Correction (FEC) technique that provides enhanced bit-error-rate performance. The EDM Packet Data Mode supports packet data transfer from the airborne host computer to another airborne platform or the ground-based equivalent SINGARS system. Performance capabilities, ECM/ECCM specifications and Engineering Change Orders (ECOs) are classified Secret.

b. The AN/APX-118 transponder system provides automatic radar identification of the helicopter. The system receives, decodes, and replies to interrogations on modes 1,2,3/A,4,C and S from all suitable equipped challenging airborne and ground facilities. The receiver operates on 1,300 MHz and the transmitter section operates on a frequency of 1090MHz. Because these frequencies are in the UHF band, the operational range is limited to line-of-site. The transponder is classified Secret if MODE IV or MODE S fill is installed in the equipment with a crypto device.

c. The AN/APR-39A(V)1 Radar Detecting Set (RDS) is a lightweight radar receiver for general aircraft application used on the majority of U.S. Army aircraft platforms to include the CH-47F aircraft. The system provides warning of radar directed threats to allow appropriate evasive maneuvers and deployment of chaff. The system has the capability of detecting all pulse radar normally associated with hostile surface-to-air missiles, airborne intercepts and anti-aircraft weapon systems. The system has 10 individually housed components consisting of one control, one indicator, one comparator, two receivers, two left spiral antennas, two right spiral antennas and one blade antenna. POLICY JUSTIFICATION

Jordan – Material Management Program for F100-PW-220E Engines

The Hashemite Kingdom of Jordan has requested a possible sale to establish a Material Management Program for repair and return of 61 F100-PW-220E engine modules, support and test equipment, spare and repair parts, publications and technical documentation, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics and program support. The estimated cost is \$75 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO Ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats. Jordan will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Jordan currently has forty-seven F-16s in its inventory and plans to field an additional fifteen in the next year. The requested F100-PW-220E engines are essential in the serviceability of its F-16 fleet.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Pratt & Whitney of East Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Jordan. However, this program will require up to 4 U.S. government and 4 contractor representatives to participate in bi-annual Program Management Reviews in Jordan and the U.S. for a period of approximately one week.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

Dated: December 9, 2009.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

#### Defense Business Board (DBB) Meeting

**AGENCY:** Department of Defense (DoD).

**ACTION:** Meeting notice.

**SUMMARY:** Under the provisions of the Federal Advisory Committee Act of 1972 (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102-3.150, the Department of Defense announces that the Defense Business Board (DBB) will meet on January 21, 2010. Subject to the availability of space, the meeting is open to the public.

**DATES:** The public meeting will be held on Thursday, January 21, 2010, from 9:00 a.m. to 11:30 a.m.

**ADDRESSES:** The meeting will be held at the Pentagon, Room 3E-863, Washington, DC (escort required, see the **SUPPLEMENTARY INFORMATION** section of this notice for further information).

**FOR FURTHER INFORMATION CONTACT:** For meeting information please contact Ms. Debora Duffy, Defense Business Board, 1155 Defense Pentagon, Room 5B-1088A, Washington, DC 20301-1155, [Debora.duffy@osd.mil](mailto:Debora.duffy@osd.mil), (703) 697-2168.

The Board's Designated Federal Officer is Ms. Phyllis Ferguson, Defense Business Board, 1155 Defense Pentagon, Room 5B-1088A, Washington, DC 20301-1155, [Phyllis.ferguson@osd.mil](mailto:Phyllis.ferguson@osd.mil), (703) 695-7563.

**SUPPLEMENTARY INFORMATION:** During this meeting, the Board will deliberate findings and recommendations from five Task Groups: (1) "Reducing Acquisition Costs by Applying Best Business Practices to Fixed-Price Contracting," (2) "Managing DoD Under Sustained Topline Pressures," (3) "Recommendations for Insourcing the Acquisition Workforce," (4) "Assessing the Defense Industrial Base," and (5) "A Review of Spectrum Management." The mission of the DBB is to advise the Secretary of Defense on effective strategies for implementation of best business practices of interest to the Department of Defense.

#### Availability of Materials for the Meeting

The draft agenda for the meeting may be obtained from the Board's Web site at: <http://www.defenselink.mil/dbb> under "Meetings—January 21, 2010."

#### Public's Accessibility to the Meeting

Pursuant to 5 U.S.C. 552b and 41 CFR 102-3.140 through 102-3.165, and the availability of space, this meeting is open to the public. Seating is on a first-come basis. All members of the public who wish to attend the meeting must contact Ms. Duffy (see **FOR FURTHER INFORMATION CONTACT**) no later than noon on Thursday, January 14, 2010, to register and make arrangements for a Pentagon escort, if necessary. Public attendees requiring escort should arrive at the Pentagon Metro Entrance in time to complete security screening by 8:45 a.m. To complete security screening, please come prepared to present two forms of identification: (1) A government-issued photo I.D., and (2) any type of secondary I.D. which verifies the individual's name (*i.e.* debit card, credit card, work badge, social security card).

**Special Accommodations:** Individuals requiring special accommodations to access the public meeting should contact Ms. Duffy at least five (5) business days prior to the meeting so that appropriate arrangements can be made.

#### Procedures for Providing Public Comments

Pursuant to 41 CFR 102-3.105(j) and 102-3.140, and section 10(a)(3) of the Federal Advisory Committee Act of 1972, the public or interested organizations may submit written comments to the Board about its mission and topics pertaining to this public session.

Written comments are accepted until the date of the meeting, however, written comments should be received by the DFO at least five (5) business days prior to the meeting date so that the comments may be made available to the Board for their consideration prior to the meeting. Written comments should be submitted via email to the address for the DFO given in this notice in the following formats (Adobe Acrobat, WordPerfect, or Word format). Please note: Since the Board operates under the provisions of the Federal Advisory Committee Act, as amended, all public presentations will be treated as public documents and will be made available for public inspection, up to and including being posted on the Board's Web site.

Dated: December 9, 2009.
