SUPPLEMENTARY INFORMATION: The subject of this notice is to extend the time to comment on a revised risk analysis for solvent contaminated wipes. The revised risk analysis was developed in support of a rule proposed on November 20, 2003 (68 FR 65586). The revised risk analysis and supporting documents are available through <http://www.regulations.gov> under docket EPA-HQ-RCRA-2003-0004 and <http://www.epa.gov/epawaste/hazard/wastetypes/wasteid/solvents/wipes.htm>.

On November 20, 2003, EPA proposed to: (1) Conditionally exclude from the definition of solid waste industrial wipes contaminated with solvent and sent to laundries or dry cleaners for cleaning and reuse and (2) conditionally exclude from the definition of hazardous waste industrial wipes contaminated with solvent and sent to disposal. The proposed rule is available through <http://www.regulations.gov> under docket EPA-HQ-RCRA-0004 and <http://www.epa.gov/epawaste/hazard/wastetypes/wasteid/solvents/wipes.htm>.

The comment period for the NODA was scheduled to close on December 28, 2009. However, EPA received a request to extend the comment period to allow the requester additional time to review the available information. In addition, EPA recently updated its contact list used to notify stakeholders when **Federal Register** notices about rulemaking activities in the areas of hazardous waste regulations are published. Extending the comment period responds to the commenter's request and allows recent additions to the contact list time to comment on the revised risk analysis. EPA has also received a request for the mathematical models and input/output files used to develop the revised risk analysis. Although this information is not necessary for review of the revised risk analysis, you may obtain a copy of the mathematical models and input/output files upon request through the contact listed above. EPA also notes that this rule is not subject to any statutory or judicial deadlines. We are therefore extending the comment period for this NODA until February 26, 2010.

Dated: December 9, 2009.

Director, Office of Resource Conservation and Recovery.
