

primarily the result of human disturbance.

Inventoried roadless areas: Areas are identified in a set of inventoried roadless area maps, contained in Forest Service Roadless Area Conservation, Draft Environmental Impact Statement, Volume 2, dated May 2000, which are held at the National headquarters office of the Forest Service, or any subsequent update or revision of those maps.

Major vegetation types: Plant communities, which are typically named after dominant plant species that are characteristic of the macroclimate and geology of the region or sub-region.

Native species: Species of the plant and animal kingdom indigenous to the plan area or assessment area.

Plan area: The geographic area of National Forest System lands covered by an individual land and resource management plan. The area may include one or more administrative units.

Productive capacity of ecological systems: The ability of an ecosystem to maintain primary productivity including its ability to sustain desirable conditions such as clean water, fertile soil, riparian habitat, and the diversity of plant and animal species; to sustain desirable human uses; and to renew itself following disturbance.

Range of variability: The expected range of variation in ecosystem composition, and structure that would be expected under natural disturbance regimes in the current climatic period. These regimes include the type, frequency, severity, and magnitude of disturbance in the absence of fire suppression and extensive commodity extraction.

Reference landscapes: Places identified in the plan area where the conditions and trends of ecosystem composition, structure, and processes are deemed useful for setting objectives for desired conditions and for judging the effectiveness of plan decisions.

Responsible official: The officer with the authority and responsibility to oversee the planning process and make decisions on proposed actions.

Reviewing officer: The supervisor of the responsible official.

Social and economic sustainability: Meeting the economic, social, aesthetic, and cultural needs and desires of current generations without reducing the capacity of the environment to provide for the needs and desires of future generations, considering both local communities and the nation as a whole. It also involves the capacity of citizens to communicate effectively with each other and to make sound choices about their environment.

Species: Any member of the animal or plant kingdom that is described as a species in a peer-reviewed scientific publication and is identified as a species by the responsible official pursuant to a plan decision, and must include all species listed under the Endangered Species Act as threatened, endangered, candidate, or proposed for listing by the U.S. Fish and Wildlife Service or National Marine Fisheries Service.

Species-at-risk: Federally listed endangered, threatened, candidate, and proposed species and other species for which loss of viability, including reduction in distribution or abundance, is a concern within the plan area. Other species-at-risk may include sensitive species and state listed species. A species-at-risk also may be selected as a focal species.

Species viability: A species consisting of self-sustaining and interacting populations that are well distributed through the species' range. Self-sustaining populations are those that are sufficiently abundant and have sufficient diversity to display the array of life history strategies and forms to provide for their long-term persistence and adaptability over time.

Successional stages: The different structural and compositional phases of vegetation development of forests and grasslands that occur over time following disturbances that kill, remove, or reduce vegetation and include the major developmental or seral stages that occur within a particular environment.

Timber production: The sustained long-term and periodic harvest of wood fiber from National Forest System lands undertaken in support of social and economic objectives identified in one or more land and resource management plans. For purposes of this regulation, the term timber production includes fuel wood.

Undeveloped areas: Areas, including but not limited to inventoried roadless areas and unroaded areas, within national forests or grasslands that are of sufficient size and generally untrammelled by human activities such that they are appropriate for consideration for wilderness designation in the planning process.

Unroaded areas: Any area, without the presence of a classified road, of a size and configuration sufficient to protect the inherent characteristics associated with its roadless condition. Unroaded areas do not overlap with inventoried roadless areas.

BILLING CODE 3410-11-P

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 14

RIN 2900-AN44

Federal Tort Claim Delegation

AGENCY: Department of Veterans Affairs.

ACTION: Final rule.

SUMMARY: This document amends the Department of Veterans Affairs (VA) regulations concerning delegation of authority to the Secretary of Veterans Affairs to consider, ascertain, adjust, determine, compromise, and settle claims under the Federal Tort Claims Act where the amount of settlement does not exceed \$300,000, and the Secretary's redelegation of such authority to certain personnel within the Office of the General Counsel. The amendments will facilitate the timely processing of claims under the Federal Tort Claims Act by expanding VA's settlement authority and clarifying the delegation of such authority within the Department.

DATES: *Effective Date:* December 18, 2009.

FOR FURTHER INFORMATION CONTACT: E. Douglas Bradshaw, Jr., Assistant General Counsel (021), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420, (202) 461-4900. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Section 203 of the Veterans Benefits and Services Act of 1988 (Pub. L. 100-322) added former section 223 to title 38, United States Code (recodified in 1991 as 38 U.S.C. 515), permitting the Secretary of Veterans Affairs to settle tort claims not exceeding an amount to be delegated by the Attorney General of the United States (with the delegation not to exceed the maximum delegated to the United States Attorneys). In 1988, the Attorney General delegated \$100,000 in settlement authority to the Secretary. 53 FR 37753, Sept. 28, 1988. In 1999, VA published a final rule reflecting that the Attorney General increased the delegation to \$200,000. 64 FR 47111, Aug. 30, 1999. In 2008, the Attorney General increased the delegation of settlement authority to \$300,000. 73 FR 70278, Nov. 20, 2008.

Current § 14.600 does not reflect the Attorney General's 2008 delegation or VA's determination regarding the necessary redelegations to Office of the General Counsel (OGC) personnel. The purpose of this rulemaking is to update VA regulations in light of the Attorney General's action increasing the amount of VA's settlement authority for tort claims and also to allow for the further delegation of this authority within OGC as necessary.

This amendment to 38 CFR 14.600(c)(2) delegates to the General Counsel, Deputy General Counsel, Assistant General Counsel (Professional Staff Group I), or those authorized to act for them, authority to consider, ascertain, adjust, determine, compromise, and settle a claim arising under the Federal Tort Claims Act; provided that any award, compromise, or settlement in excess of \$300,000 shall be effected only with the prior written approval of the Attorney General or his or her designee. The amendment also provides for the execution of a memorandum explaining the basis for settlement of a claim in excess of \$100,000 to be sent to the Department of Justice (DOJ), as required by the Attorney General's delegation to the Secretary.

Authority is also delegated to the Regional Counsels, or those authorized to act for them, and to the Deputy Assistant General Counsel (Professional Staff Group I) to consider, ascertain, adjust, determine, compromise, and settle any claim under the Federal Tort Claims Act; provided that any award, compromise, or settlement does not exceed \$150,000; and provided, further, that whenever a settlement is effected in an amount in excess of \$100,000, a memorandum fully explaining the basis for the action taken shall be sent to the DOJ, as required by the Attorney General's delegation to the Secretary.

This rule further amends § 14.600 to incorporate notes (1), (2), and (3) into the regulation text. We have determined that the notes, which prescribe the requirement for notifying DOJ of the basis for any settlement of a tort action under VA's delegated authority, are more appropriate for regulation text. Accordingly, we have amended § 14.600(c) and (d) to incorporate the DOJ notification requirement and delete the notes.

Administrative Procedure Act

This final rule concerns agency organization, management, procedure, or practice, specifically delegation of authority to employees of the Department to perform certain acts or render decisions. Accordingly, because

this amendment merely reflects a delegation change and makes other non-substantive changes, this rule is exempt from the prior notice-and-comment and delayed-effective-date requirements of 5 U.S.C. 553.

Paperwork Reduction Act

This document contains no provisions constituting a collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3521).

Executive Order 12866

Because this document is limited to agency organization and management, it is not within the definition of "regulation" in section 3(d) of Executive Order 12866 and therefore not subject to that Executive Order's requirements for regulatory actions.

Regulatory Flexibility Act

The initial and final regulatory flexibility analysis requirements of sections 603 and 604 of the Regulatory Flexibility Act, 5 U.S.C. 601–612, are not applicable to this rule because a notice of proposed rulemaking is not required for this rule. Even so, the Secretary of Veterans Affairs hereby certifies that this final rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act. This final rule will not affect any small entities. Only VA employees could be directly affected. Therefore, pursuant to 5 U.S.C. 605(b), this final rule is exempt from the initial and final regulatory flexibility analysis requirements of sections 603 and 604.

Unfunded Mandates

The Unfunded Mandates Reform Act of 1995, codified at 2 U.S.C. 1532, requires that agencies prepare an assessment of anticipated costs and benefits before issuing any rule that may result in an expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more (adjusted annually for inflation) in any year. This final rule would have no such effect on State, local, and tribal governments, or on the private sector.

Catalog of Federal Domestic Assistance

There is no Catalog of Federal Domestic Assistance number for this final rule.

Harold A. Frankford, (215) 814–2108 or by e-mail at frankford.harold@epa.gov.

SUPPLEMENTARY INFORMATION: On July 13, 2009 (74 FR 33332), EPA published an update of materials submitted by Virginia that are incorporated by reference (IBR) into the Virginia State implementation plan (SIP) as of June 1, 2009. The regulations, source-specific requirements, and non-regulatory requirements affected by this update (summarized in the tables cited as 40 CFR 52.2420(c), (d), and (e) respectively) had been previously submitted by the Virginia Department of Environmental Quality (DEQ) and approved by EPA. In this update action, EPA announced the following revisions to entries listed in the paragraph 52.2420(c), (d) and (e) tables:

- Correction of typographical errors to the text and the dates published in these tables.
- Removal of the quotation marks from the terms listed in the “Explanation [former SIP section]” column.
- Removal of entries 5–80–1835, 5–80–1845, and 5–80–1855, from the paragraph (c) table, since they are designated as “reserved,” and contain no text that is incorporated by reference.
- Correction of the date format in the paragraph (c), (d) and (e) tables so that there were no placeholder zeros in the month or day (e.g., the date format would be 1/1/08, not 01/01/08).

However, the tables cited as 40 CFR 52.2420(c) through (e), and published on pages 33334 through 33364, still contained entries that did not reflect the described revisions. This action corrects those tables in 40 CFR 52.2420(c) through (e), as described herein:

1. Page 33334—a. Entry 5–10–20—in the “Explanation [former SIP citation]” column, remove the quotation marks from “volatile organic compound.”
