

accountability information both about success at the initial site and effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. In addition, the annual report should, but is not required to, include:

- A summary of activities conducted by subgrantees.
- The number of teachers served through the program, including the number of teachers from schools serving a high concentration of low-income students.
- The number of students served, including those attending schools serving a high concentration of low-income students.

The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to: <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Secretary has established one performance objective and three performance measures to assess the effectiveness of this program. Projects funded under this competition will be expected to collect and report to the Department data related to these

measures. Applications should, but are not required to, discuss in the application narrative how they propose to collect these data. The GPRA performance objective is: To increase students' knowledge of, and achievement in, personal finance and economics to enable the students to become more productive and informed citizens. The three GPRA performance measures are: (1) The percentage of students participating in projects funded through the Excellence in Economic Education program who score proficient on standardized tests of economics and/or personal finance; (2) the percentage of teachers participating in projects funded by the Excellence in Economic Education program who show a significant increase in their pre-post scores on a standardized measure of economic content knowledge; and (3) the percentage of students participating in entrepreneurial projects funded by the Excellence in Economic Education program who show a significant increase in their pre-post scores on a standardized measure.

Applicants should provide in the application a baseline for each performance measure and the target number of students they anticipate will be either proficient on the measure or demonstrate a significant increase in their pre-post scores on a standardized measure.

The grantee under this program will be expected to collect and report these data to the Department in the annual performance report, and applicants are strongly encouraged to design their proposed project evaluations around these performance measures.

Applicants are encouraged to propose ambitious but realistic targets. The Department will use this information to closely monitor the implementation of project activities, student and teacher outcomes.

[Project No. 13441-000]

FFP Iowa 3, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

December 14, 2009.

On April 30, 2009, FFP Iowa 3, LLC filed an application pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the Mississippi River Lock and Dam No. 16 Water Power Project (Lock & Dam 16 Project) to be located at River Mile 457.2 on the Mississippi River near the town of Muscatine in Muscatine County, Iowa, and Rock Island County, Illinois.

The proposed Lock & Dam 16 Project would be located at the existing U.S. Army Corps of Engineers Lock & Dam No. 16 and would consist of: (1) Twenty six 760-kilowatt (kW) Very Low Head (VHL) generating units with a combined capacity of 19.7 megawatts (MW) to be installed integral with the dam, and one hundred 35-kW hydrokinetic generating units with a combined capacity of 3.5 MW to be installed in the Mississippi River in an area just downstream of the dam; and (2) a new 11,000 foot-long, 69-kilovolt (or greater) transmission line connected to an existing above-ground local distribution system. The project would have an estimated average annual generation of 96,400 megawatt-hours.
