

OMB Control Number: 1219-0078.
Form Number: MSHA 5000-3.
Estimated Number of Respondents:
224.

Estimated Total Annual Burden
Hours: 8,825.

Estimated Total Annual Cost Burden
(does not include hourly wage costs):
\$243,049.

Affected Public: Business or other for
profits (metal and nonmetal mines).

Description: The Department's
regulations at 30 CFR part 49 set
standards relating to the availability of
mine rescue teams; alternate mine
rescue capability for small and remote
mines and mines with special mining
conditions; inspection and maintenance
records of mine rescue equipment and
apparatus; physical requirements for
mine rescue team members and
alternates; and experience and training
requirements for team members and
alternates. The information collection
requirements contained in 30 CFR part
49 are used by mine operators, miners,
and MSHA to formulate an appropriate
rescue capability within the guidelines
set forth in these standards. For
additional information, see related
notice published in the **Federal Register**
on October 15, 2009, at Vol. 74, page
52979.

Agency: Mine Safety and Health
Administration.

Type of Review: Extension without
change of currently approved collection.

Title of Collection: Daily Inspection of
Surface Coal Mines; Certified Person;
Reports of Inspection.

OMB Control Number: 1219-0083.
Form Number: N/A.

Estimated Number of Respondents:
1,442.

Estimated Total Annual Burden
Hours: 674,856.

Estimated Total Annual Cost Burden
(does not include hourly wage costs): \$0.

Affected Public: Business or other for
profits (surface coal mines).

Description: 30 CFR 77.1713 requires
operators of surface coal mines and
surface facilities to keep records of the
results of required examinations for
hazardous conditions. These records
consist of the nature and location of any
hazardous condition found and the
actions taken to abate the hazardous
condition. The records are used by the
MSHA inspectors to determine
compliance with the standard, and that
any hazards found have either been
corrected or barricaded. Mine operators
use these records to identify areas of the
mine or equipment that present hazards
to miners and, therefore, must be
corrected to prevent miner injuries or
death. Repeated hazardous conditions

in any area or involving a particular
piece of equipment would indicate to
the operator the need for modification of
operating procedures or replacement or
repair of equipment. For additional
information, see related notice
published in the **Federal Register** on
October 9, 2009, at Vol. 74, page 52260.

Agency: Mine Safety and Health
Administration.

Type of Review: Extension without
change of currently approved collection.

Title of Collection: Explosive
Materials and Blasting Units.

OMB Control Number: 1219-0095.

Form Number: N/A.

Estimated Number of Respondents: 1.

Estimated Total Annual Burden
Hours: 1.

Estimated Total Annual Cost Burden
(does not include hourly wage costs): \$0.

Affected Public: Business or other for
profits (metal and nonmetal
underground mines deemed to be
gassy).

Description: The Department's
regulations at 30 CFR 57.22606(a)
provide procedures by which a mine
operator shall notify MSHA of all
explosive materials and blasting units
prior to their use in underground gassy
metal and nonmetal mines. MSHA uses
the information provided by the mine
operator to determine whether
nonapproved blasting materials and
explosives and procedures are safe for
use in a gassy underground metal or
nonmetal mine. Without such
determinations, miners may be exposed
to significant safety risks. For additional
information, see related notice
published in the **Federal Register** on
September 28, 2009, at Vol. 74, page
49401.

Darrin A. King,

Departmental Clearance Officer.

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Employment and Training Administration

[TA-W-64,668]

Tenneco, Inc., Including On-Site Leased Workers From Elite Staffing, Inc., Cozad, NE; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the
Trade Act of 1974 (19 U.S.C. 2273), and
Section 246 of the Trade Act of 1974 (26
U.S.C. 2813), as amended, the

Department of Labor issued a
Certification of Eligibility to Apply for
Worker Adjustment Assistance and
Alternative Trade Adjustment
Assistance on January 15, 2009,
applicable to workers of Tenneco, Inc.,
Cozad, Nebraska. The notice was
published in the **Federal Register** on
February 2, 2009 (74 FR 5871).

At the request of the State agency, the
Department reviewed the certification
for workers of the subject firm. The
workers are engaged in activities related
to the production of shock absorbers.

New information shows that workers
leased from Elite Staffing, Inc. were
employed on-site at the Cozad, Nebraska
location of Tenneco, Inc.

The Department has determined that
these workers were sufficiently under
the control of Tenneco, Inc. to be
considered leased workers.

The intent of the Department's
certification is to include all workers of
the subject firm adversely affected as a
supplier to a trade certified primary
firm.

Based on these findings, the
Department is amending this
certification to include workers leased
from Elite Staffing, Inc. working on-site
at the Cozad, Nebraska location of the
subject firm.

The amended notice applicable to
TA-W-64,668 is hereby issued as
follows:

All workers of Tenneco, Inc., including on-
site leased workers from Elite Staffing, Inc.,
Cozad, Nebraska, who became totally or
partially separated from employment on or
after December 12, 2007, through January 15,
2011, are eligible to apply for adjustment
assistance under Section 223 of the Trade Act
of 1974, and are also eligible to apply for
alternative trade adjustment assistance under
Section 246 of the Trade Act of 1974.

Signed at Washington, DC this 8th day of
December 2009.

Elliott S. Kushner,

Certifying Officer, Division of Trade
Adjustment Assistance.
