¹ Section 7(b)(3)(C) of the FDI Act provides that, in setting the DRR for any year, the Board must: "(i) take into account the risk of losses to the Deposit Insurance Fund in such year and future years, including historic experience and potential and estimated losses from insured depository institutions; (ii) take into account economic conditions generally affecting insured depository institutions so as to allow the designated reserve ratio to increase during more favorable economic conditions and to decrease during less favorable economic conditions, notwithstanding the increased risks of loss that may exist during such less favorable conditions, as determined to be appropriate by the Board of Directors; (iii) seek to prevent sharp swings in the assessment rates for insured depository institutions; and (iv) take into account such other factors as the Board of Directors may determine to be appropriate, consistent with the requirements of this subparagraph." 12 U.S.C. 1817(b)(3)(C).

² The DRR is indicated in section 327.4(g) of the FDIC's regulations. 12 CFR 327.4(g). There is no need to amend this provision because, as noted, the DRR for 2010 is the same as the current DRR.

³ The applicable provision of the FDI Act requires notice-and-comment rulemaking only when the Board changes the DRR. 12 U.S.C. 1817(b)(3)(A)(ii).
