Expiration Date of Approval: February 28, 2010.

Abstract. Generic Clearance of the Science Resources Statistics Survey Improvement Projects. The National Science Foundation's Division of Science Resources Statistics (NSF/SRS) needs to collect timely data on constant changes in the science and technology sector and to provide the most complete and accurate information possible to policy makers in Congress and throughout government and academia. This may include field or pilot tests of questions for future large-scale surveys, as needed.

Expected Respondents. The respondents will be from industry, academia, nonprofit organizations, members of the public, and State, local, and Federal governments. Respondents will be either individuals or institutions, depending upon the survey under investigation. Qualitative procedures will generally be conducted in person or over the phone, but quantitative procedures may be conducted using mail, Web, e-mail, or phone modes, depending on the topic
