

Definition of Terms

Components of Coverage Error—The two components of census coverage error are census omissions (missed persons or housing units) and erroneous enumerations (persons or housing units enumerated in the census that should not have been). Examples of erroneous enumerations are persons or housing units enumerated in the census that should not have been enumerated at all, persons or housing units enumerated in an incorrect location, and persons or housing units enumerated more than once (duplicates).

Net Coverage Error—Net Coverage Error is a measure of the difference between census omissions and erroneous enumerations. A positive net error indicates an undercount, while a negative net error indicates an overcount.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Cook Inlet Beluga Whale Pilot Economic Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before March 1, 2010.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 7845, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Dan Lew, (530) 752-1746 or Dan.Lew@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The population of Cook Inlet beluga whales found in the Cook Inlet of Alaska is one of five distinct population segments in United States (U.S.) waters. It was listed as endangered under the *Endangered Species Act* on October 22, 2008 (73 FR 62919). The public benefits associated with the results of protective actions on the Cook Inlet beluga whale, such as population increases, are primarily the result of the non-consumptive value people attribute to such protection (e.g., active use values

associated with being able to view beluga whales and passive use values unrelated to direct human use). Little is known about these values, yet such information is needed for decision makers to more fully understand the trade-offs involved in choosing among potential protection alternatives and to complement other information available about the costs, benefits, and impacts of protection alternatives.

The National Marine Fisheries Service plans to conduct a pilot survey to test a survey instrument that will be used to collect data for measuring the economic benefits the public receives for providing additional protection, beyond current levels, to the Cook Inlet beluga whale. These preferences are currently not known, but are needed to assist in the evaluation of alternative measures to further protect and recover the species' population, such as in the evaluation of critical habitat designations. The pilot survey consists of conducting a small-scale mail-telephone survey of U.S. households that will collect information needed to evaluate the survey instrument and implementation procedures.

II. Method of Collection

Data will be collected primarily through a mail survey of a random sample of U.S. households with an oversampling of Alaska households. Additional data will be collected in telephone interviews with individuals who do not respond to the mail survey.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Households.

Estimated Number of Respondents: 240.

Estimated Time per Response: 25 minutes.

Census Bureau

Proposed Information Collection; Comment Request; Quarterly Survey of State and Local Tax Revenues

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: To ensure consideration, written comments must be submitted on or before March 1, 2010.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Cheryl Lee, Chief, State Finance and Tax Statistics Branch, Governments Division, U.S. Census Bureau, 4600 Silver Hill Road, Washington, DC 20233 (301-763-5635).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau conducts the Quarterly Summary of State and Local Tax Revenue, using the F-71 (Quarterly Survey of Property Tax Collection), F-72 (Quarterly Survey of State Tax Collections), and F-73 (Quarterly

Survey of Non-Property Taxes) forms. The Census Bureau is requesting a revision to the F-73 form, which surveys local governments on the non-property taxes they collect. The revised form will collect additional information about local government revenue, covering areas such as motor fuel sales, public utilities, alcohol sales, tobacco sales, motor vehicle licenses and operator's licenses corporate income and all other non-property taxes. The Census Bureau needs local tax data to publish benchmark statistics on public sector taxes, to provide data to the Bureau of Economic Analysis for Gross Domestic Product (GDP) calculations and other economic indicators, and to provide data for economic research and comparative studies of governmental finances. Data are collected on a quarterly basis from State and local government tax collecting agencies.

Tax collection data are used to measure economic activity for the Nation as a whole, as well as for comparison among the various States. These data also are useful in comparing the mix of taxes employed by individual localities, and in determining the revenue raising capacity of different types of taxes.

The Quarterly Survey of Non-Property Taxes (Form F-73) will be sent to approximately 3,000 local tax collection agencies known to have substantial collections of local general sales and/or local individual income taxes every quarter. A new sample frame is being developed to accompany the new survey design. The new sample is designed to meet the Office of Management and Budget's statistical standards for data quality.

II. Method of Collection

The F-73 forms are sent to respondents by direct mail. Respondents submit the forms by mail, e-mail, facsimile or Internet. (E-mail and facsimile are accepted but not encouraged.)

In those instances when we are not able to obtain a response we conduct follow-up operations using e-mail and phone calls.
