

comment date for the particular application.

o. Filing and Service of Responsive Documents: All filings must (1) bear in all capital letters the title "PROTEST," "MOTION TO INTERVENE," "COMMENTS," "REPLY COMMENTS," "RECOMMENDATIONS," or "TERMS AND CONDITIONS"; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene or protests should relate to project works which are the subject of the license amendment. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

p. As provided for in 18 CFR 4.34(b)(5)(i), a license applicant must file, no later than 60 days following the date of issuance of this notice of acceptance and ready for environmental analysis: (1) A copy of the water quality certification; (2) a copy of the request for certification, including proof of the date on which the certifying agency received the request; or (3) evidence of waiver of water quality certification.

q. e-Filing: Comments, motions to intervene, protests, or terms and conditions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site at <http://www.ferc.gov> under the "eFiling" link.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2009-0536; FRL-9100-2]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills (Renewal); EPA ICR No. 1893.05, OMB Control No. 2060-0430

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR, which is abstracted below, describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before February 3, 2010.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OECA-2009-0536, to (1) EPA online using <http://www.regulations.gov> (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code: 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB by mail to: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Hillary Ward, Office of Air Quality Planning and Standards, MC E143-01, Environmental Protection Agency, 109 T.W. Alexander Drive, Research Triangle Park, NC 27711; telephone number: (919) 541-3154; fax number: (919) 541-0246; e-mail address: Ward.Hillary@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 30, 2009 (74 FR 38004), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-

HQ-OAR-2009-0536, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the OECA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the OECA Docket is 202-566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills (Renewal).

ICR Status: This ICR is scheduled to expire on January 31, 2010. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9 and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR is a renewal of current data collection and reporting requirements for Municipal Solid Waste Landfills subject to 40 CFR part 60, subpart Cc emission guidelines. The subpart Cc guidelines are implemented through either State plans or the Federal plan (40 CFR part 62, subpart GGG) that EPA developed for landfills located in States and Indian country that did not

develop a State or Tribal plan. State plans were due to EPA by December 12, 1996 and the Federal plan was promulgated on November 8, 1999. The data collection is a mandatory requirement (Clean Air Act section 114(a)(1)).

The information generated by the monitoring, recordkeeping, and reporting requirements described in this ICR is used by the Agency to ensure that facilities affected by the emission guidelines continue to operate the control equipment and achieve compliance with the regulation. The emission guidelines require affected facilities to maintain all records, including the submitted reports and notifications for at least 5 years.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 15 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Municipal Solid Waste Landfills.

Estimated Number of Respondents: 559.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 46,146.

Estimated Total Annual Cost: \$3,956,321, which includes labor costs of \$3,229,721 and operation and maintenance costs of \$726,600.

Changes in the Estimates: There is an increase of 33,690 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase reflects the recordkeeping and reporting burden for entities under State plans and the Federal plan. The original ICR included only the burden for municipal solid waste landfills subject to the Federal plan for municipal solid waste landfills. This ICR renewal adds the burden imposed by State plans to the burden imposed by the Federal plan.

Dated: December 24, 2009.

Richard T. Westlund,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[Petition IV-2008-5; FRL-9099-5]

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for East Kentucky Power Cooperative, Inc.—William C. Dale Power Station; Clark County, KY

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition to object to a State operating permit.

SUMMARY: Pursuant to Clean Air Act (CAA) Section 505(b)(2) and 40 CFR 70.8(d), the EPA Administrator signed an Order, dated December 14, 2009, denying a petition to object to a title V operating permit issued by the Kentucky Division for Air Quality (KDAQ) to East Kentucky Power Cooperative, Inc. (EKPC) for its William C. Dale Power Station (Dale Station) located in Clark County, Kentucky. This Order constitutes a final action on the petition submitted by Sierra Club and Kentucky Environmental Foundation (Petitioners) on November 24, 2008. Pursuant to sections 307(b) and 505(b)(2) of the CAA, a petition for judicial review of the Order may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice appears in the **Federal Register**.

ADDRESSES: Copies of the Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4, Air, Pesticides and Toxics Management Division, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960. The Order is also available electronically at the following address: http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitions/ekpc_dale_response2008.pdf.

FOR FURTHER INFORMATION CONTACT: Art Hofmeister, Air Permits Section, EPA Region 4, at (404) 562-9115 or hofmeister.art@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by State permitting authorities under title V of the CAA, 42 U.S.C. 7661-7661f.

Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA's 45-day review period if EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the State, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

Petitioners submitted a petition regarding the EKPC Dale Station on November 24, 2008, requesting that EPA object to the title V operating permit (#V-08-009). Petitioners alleged that the permit was not consistent with the CAA for the following reasons: (1) The maximum heat input rates in the permit must be enforceable limits because, presumably, there exists a State operating permit for Dale Station that includes maximum heat inputs and, because without such maximum heat input limits, compliance with the National Ambient Air Quality Standards for SO₂ cannot be assured; and, (2) KDAQ cannot delete the three-hour averaging time from the particulate matter (PM) emission limit for certain coal handling equipment because the emission limit must have an averaging time; therefore, the three-hour averaging time should be placed back into the permit, and the permit should be required to include monitoring and reporting adequate to assure compliance with the PM limit.

On December 14, 2009, the Administrator issued an Order denying the petition. The Order explains EPA's rationale for denying the petition with respect to the issues raised.

Dated: December 18, 2009.

Beverly H. Banister,

Acting Regional Administrator, Region 4.
