eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on November 5, 2009. The Notice of Determination will soon be published in the Federal Register.

The initial investigation resulted in a negative determination based on the findings that imports of Trityl Losartan did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred. In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm.

The Department has carefully reviewed the request for reconsideration and the existing record, and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion
After careful review of the application, I conclude that the claim is sufficiently supported by the evidence to meet the eligibility requirements of the Trade Act of 1974.
