Cross-Media Electronic Reporting Rule State Approved Program Revision/Modification Approvals: State of Connecticut

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA’s approval, under regulations for Cross-Media Electronic Reporting, of the State of Connecticut’s request to revise/modify programs to allow electronic reporting for certain of its EPA-authorized programs under title 40 of the CFR.

DATES: EPA’s approval is effective January 7, 2010.

FOR FURTHER INFORMATION CONTACT: Evi Huffer, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 566–1697, huffer.evi@epa.gov, or David Schwarz, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, (202) 566–1704, schwarz.david@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the Federal Register (70 FR 59848) and codified as Part 3 of
title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Under Subpart D of CROMERR, state, tribe or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and get EPA approval. Subpart D also provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, in §3.1000(b) through (e) of 40 CFR Part 3, Subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the Subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable Subpart D requirements.

On July 22, 2009, the State of Connecticut Department of Environmental Protection (CTDEP) submitted an application for its Net Discharge Monitoring Report (NetDMR) electronic document receiving system for revision or modification of EPA-authorized programs under title 40 CFR. EPA reviewed CTDEP’s request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/ modifications set out in 40 CFR part 3, Subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA’s decision to approve Connecticut’s request for revision/modification to certain of its authorized programs is being published in the Federal Register.

Specifically, EPA has approved CTDEP’s request for revision/modification to the following authorized programs to allow electronic reporting for the specified reports: 40 CFR Part 123—NPDES State Program Requirements and Part 403—General Pretreatment Regulations For Existing And New Source Pollution Prevention programs for electronic reporting of discharge monitoring report information submitted under 40 CFR Parts 122 and 403. CTDEP was notified of EPA’s determination to approve its application with respect to the authorized programs listed above.
