#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Hanford Site is located in southeastern Washington State along the Columbia River, and is approximately 586 square miles in size. Hanford's mission included defense-related nuclear research, development, and weapons production activities from the early 1940s to approximately 1989. During that period, Hanford operated a plutonium production complex with nine nuclear reactors and associated processing facilities. These activities created a wide variety of chemical and radioactive wastes. Hanford's mission now is focused on the cleanup of those wastes and ultimate closure of Hanford.

In support of Hanford's cleanup mission DOE, with Ecology as a cooperating agency, prepared the Draft TC & WM EIS in accordance with the Council on Environmental Quality's National Environmental Policy Act (NEPA) Implementing Regulations at 40 CFR Parts 1500-1508 and the DOE NEPA Implementing Procedures at 10 CFR Part 1021. The Environmental Protection Agency issued a Notice of Availability of this Draft TC & WM EIS on October 30, 2009 (74 FR 56194), thereby initiating the public comment period for the Draft EIS.

##### II. Public Hearings

During an open house, the first hour of each hearing, participants may register to speak and meet informally with representatives from DOE and Ecology. During the formal portion of

each hearing, DOE and Ecology will make short opening presentations on the Draft EIS and describe the format for the hearing. The remaining time will be available for the public to comment. The schedule of locations, dates, and times for all of the public hearings is provided as follows:

Richland, WA 99352, January 26, 2010, Red Lion Hotel Hanford House, 802 George Washington Way, 509-946-7611, 6 to 10 p.m.

DOE will consider and respond to all oral and written comments received at the public hearings or written comments postmarked by March 19, 2010, in preparing the Final EIS. Late comments will be considered to the extent practicable. DOE is considering some additional public hearings. Times and locations for those additional hearings will be announced in the **Federal Register** and local media.

##### III. Next Steps

DOE intends to issue the Final Tank Closure and Waste Management EIS by March 2011. DOE will issue a Record of Decision no sooner than 30 days after the Environmental Protection Agency publishes a Notice of Availability of the Final EIS in the **Federal Register**.

Signed in Washington, DC, January 5, 2010.
