## DEPARTMENT OF JUSTICE

### Bureau of Alcohol, Tobacco, Firearms and Explosives

[Docket No. ATF 34N]

#### Commerce in Explosives; List of Explosive Materials (2009R-18T)

**AGENCY:** Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), Department of Justice.

**ACTION:** Notice of list of explosive materials.

**SUMMARY:** Pursuant to 18 U.S.C. 841(d) and 27 CFR 555.23, the Department must publish and revise at least annually in the **Federal Register** a list of explosives determined to be within the coverage of 18 U.S.C. 841 *et seq.* The list covers not only explosives, but also blasting agents and detonators, all of which are defined as explosive materials in 18 U.S.C. 841(c). As a result of a recent court decision, ammonium perchlorate composite propellant (APCP) is no longer regulated under the Federal explosives laws. Therefore, APCP has been removed from the list of explosives. In addition, the Department is revising the list to include a parenthetical text after “ammonium perchlorate explosive mixtures” to clarify that this term excludes APCP. This notice publishes the 2009 List of Explosive Materials.

**DATES:** The list becomes effective upon publication of this notice on January 8, 2010.

**FOR FURTHER INFORMATION CONTACT:** Debra S. Satkowiak, Chief; Explosives Industry Programs Branch; Arson and Explosives Programs Division; Bureau of Alcohol, Tobacco, Firearms and Explosives; United States Department of Justice; 99 New York Avenue, NE., Washington, DC 20226 (202-648-7120).

**SUPPLEMENTARY INFORMATION:** The list is intended to include any and all mixtures containing any of the materials on the list. Materials constituting blasting agents are marked by an asterisk. While the list is comprehensive, it is not all-inclusive. The fact that an explosive material is not on the list does not mean that it is not within the coverage of the law if it otherwise meets the statutory definitions in 18 U.S.C. 841. Explosive materials are listed alphabetically by their common names followed, where applicable, by chemical names and synonyms in brackets.

The Department has not added any new terms to the list of explosive materials. However, ammonium perchlorate composite propellant

(APCP) has been removed from the list of explosive materials. On March 16, 2009, the United States District Court for the District of Columbia vacated the ATF classification of APCP as an explosive as defined under 18 U.S.C. 841(d). *Tripoli Rocketry Ass'n, Inc. v. ATF*, No. 00-0273 (March 16, 2009 Order). As a result of the court's decision, APCP is no longer regulated under the Federal explosives laws at 18 U.S.C. Chapter 40. Accordingly, APCP has been removed from the list of explosive materials. In addition, the Department is revising the list to include a parenthetical text after “ammonium perchlorate explosive mixtures” to clarify that the term excludes APCP.

This list supersedes the List of Explosive Materials dated December 31, 2008 (Docket No. ATF 28N, 73 FR 80428).
