Unless otherwise indicated, the Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.22(b) and has made a determination based on that assessment, it is so indicated.

**Entergy Operations, Inc., Docket No. 50–313, Arkansas Nuclear One, Unit No. 1, Pope County, Arkansas**

**Date of amendment request:** August 5, 2009.

**Brief description of amendment:** Current Technical Specification (TS) 5.5.8, “Inservice Testing Program,” contains references to the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code, Section XI as the source of requirements for the inservice testing (IST) of ASME Code Class 1, 2, and 3 pumps and valves. The amendment deleted the references to Section XI of the Code and incorporated references to the ASME Code for Operation and Maintenance of Nuclear Power Plants (ASME OM Code). The amendment utilized some nonstandard frequencies in the IST Program in which the provisions of Surveillance Requirement 3.0.2 are applicable. The changes are consistent with Technical Specification Task Force (TSTF) change travelers TSTF–479–A, “Changes to Reflect Revision to 10 CFR 50.55a,” and TSTF–497–A, “Limit Inservice Testing Program SR 3.0.2 Application to Frequencies of 2 Years or Less.”

**Date of issuance:** December 23, 2009.

**Effective date:** As of the date of issuance and shall be implemented within 90 days from the date of issuance.

**NUCLEAR REGULATORY COMMISSION**

**[NRC–2009–0485]**

**Draft Safety Culture Policy Statement: Request for Public Comments; Extension of Comment Period**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Issuance of draft safety culture policy statement and notice of opportunity for public comment; Extension of comment period.

**SUMMARY:** On November 6, 2009, (74 FR 57525) (ML093030375), the Nuclear Regulatory Commission (NRC) published for public comment a draft policy statement on safety culture to include the unique aspects of nuclear safety and security, and to note the Commission’s expectations that all NRC licensees and certificate holders establish and maintain a positive safety culture that protects public health and safety and the common defense and security when carrying out licensed activities. The comment period was scheduled to expire on February 4, 2010, which coincides with the final day of the first of three public workshops the NRC is conducting to solicit input relating to the development of the safety culture policy statement, including: (1) development of a common safety culture definition; and (2) development of high-level
description/traits of areas important to safety culture. Based on comments from licensees that these workshops may stimulate additional comments on the final draft policy statement, the NRC has decided to extend the comment period on the draft policy statement from February 4, 2010, to March 1, 2010.

DATES: The comment period has been extended and now expires on March 1, 2010. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: You may submit comments by any one of the following methods. Please include Docket ID NRC–2009–0485 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site (Regulations.gov). Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed.
